Petition for Declaratory Statement Before the Florida Board of Pharmacy

This petition is in reference to Florida Rule 64B16-28.605 entitled Class II Institutional Pharmacies – Automated Distribution and Packaging which discusses the process by which automated systems may be used in an institutional setting. Although there are clear guidelines which establish monitoring and audit systems, it is not clear whether immediate supervision of technicians is required.

The portion of 64B16-28.605 which is in question is question is paragraph (4).

(4) Stocking or Restocking of a Decentralized Automated Medication System.

(a) Medications in a decentralized Automated Medication System shall be stocked or restocked by a pharmacist, registered pharmacy intern, or by a registered pharmacy technician supervised by a pharmacist.

(b) The stocking or restocking of a decentralized automated medication system shall follow one of the following procedures to assure correct medication selection:

1. A pharmacist shall conduct a daily audit of medications placed or to be placed into an automated medication system that includes random sampling.

2. A bar code verification, electronic verification, or similar verification process shall be utilized to assure correct selection of medication placed or to be placed into an automated medication system. The utilization of a bar code, electronic, or similar verification technology shall require an initial quality assurance validation followed by a monthly quality assurance review by a pharmacist.

We request that Rule 64B16-28.605 be reviewed to determine if the process of filling and checking medications which will be placed in an automated dispensing machine by State of Florida Registered Pharmacy Technicians and subject to the review required by 64B16-28.605(4) may be considered within the scope of practice of the Pharmacy Technician separate from the supervision requirement of Florida Statute 465 014.

Thank you for your consideration of this petition.

Dear Mr. Whitten,

Re: Board of Pharmacy Meeting - October 8-9, 2013

My name is Loreto Grimaldi and I am the COO and General Counsel of MedAvail Technologies Inc. - a US-owned company that has developed an automated, Pharmacist-centered Remote Dispensing / Telepharmacy technology that is unique in the world. We would appreciate an opportunity to present our solution to the Florida Board of Pharmacy at their upcoming meeting on October 8 and 9, 2013. In particular, we are seeking an opportunity to provide context and perspective as it relates to the "automated pharmacy" rules which we understand are to be discussed at the Rules Committee meeting.

We would greatly appreciate the opportunity at the October meeting to present our technology to the full Board, and also to review with the Rules Committee the various safety, privacy and security features which we believe allow pharmacists to increase patient access and enhance patient care by harmonizing world leading automation and technology with the traditional role of the pharmacist. Our HIPAA-compliant technology, known as the MedAvail MedCenter™, allows a pharmacist to interact with and dispense medications to a patient remotely via our safe and secure remote dispensing vault/kiosk, while maintaining direct patient contact through a live, two-way audio and video connection. The system requires pharmacist verification of all medication dispensed to the patient and preserves the judgement and accountability of the pharmacist.

Our solution is ideally suited to a variety of deployment scenarios - including doctor's clinics, hospital emergency rooms, employer campuses (as an adjunct offering to on-site healthcare facilities), and retail locations. We firmly believe, based on strong empirical evidence, that increasing access to medications at or near the point of care, promotes stronger medication adherence, better patient outcomes and decreased healthcare costs.

As you are well aware, the concept of "automated pharmacy systems" is defined in Chapter 465 of the Florida Statutes, with additional requirements specified in the Regulations (64B-16-28). Given that the current rules (and proposed amendments) are to be discussed at the October Board of Pharmacy meetings. We respectfully believe it would be useful to the Committee's and the Board's deliberation of the current/proposed rules, to understand our pharmacy kiosk technology, and in our view this provides a unique opportunity and forum for MedAvail to describe the system, and address any questions or concerns from the Board.

Specific agenda topics and background materials will be made available in advance for the Board's prior consideration, however we would look to include an overview of the technology (and a video demonstration), a review of how the technology fits into both the current Rules and those that are being proposed for discussion, and a view on our ideal deployment scenarios in the State of Florida.

Thank you - we await your kind reply.

Sincerely,

Loreto Grimaldi

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 456.076, Florida Statutes, is amended to read:

456.076 Treatment programs for impaired practitioners.—

(1) For professions that do not have impaired practitioner

programs provided for in their practice acts, the department shall, by rule, designate approved impaired practitioner programs under this section. The department may adopt rules setting forth appropriate criteria for approval of treatment providers. The rules may specify the manner in which the consultant, retained as set forth in subsection (2), works with the department in intervention, requirements for evaluating and treating a professional, requirements for continued care of impaired professionals by approved treatment providers, continued monitoring by the consultant of the care provided by approved treatment providers regarding the professionals under their care, and requirements related to the consultant's expulsion of professionals from the program.

(2)(a) The department shall retain one or more impaired practitioner consultants who are each licensees~~. The consultant shall be a licensee~~ under the jurisdiction of the Division of Medical Quality Assurance within the department and who must be:

1. A practitioner or recovered practitioner licensed under chapter 458, chapter 459, or part I of chapter 464;~~,~~ or

2. An entity that employs: ~~employing~~

a. A medical director who must be a practitioner or recovered practitioner licensed under chapter 458 or~~,~~ chapter 459;~~,~~ or

b. An executive director who must be a registered nurse or a recovered registered nurse licensed under part I of chapter 464.

(b) An entity retained as an impaired practitioner consultant under this section which employs a medical director or an executive director is not required to be licensed as a

substance abuse provider or mental health treatment provider under chapter 394, chapter 395, or chapter 397 for purposes of providing services under this program.

(c)1. The consultant shall assist the probable cause panel and the department in carrying out the responsibilities of this section. This includes ~~shall include~~ working with department investigators to determine whether a practitioner is, in fact, impaired.

2. The consultant may contract with a school or program to provide ~~for~~ services to a student ~~be provided, for appropriate compensation, if requested by the school, for students~~ enrolled for the purpose of preparing ~~in schools~~ for licensure as a health care practitioner as defined in this chapter or as a veterinarian under chapter 474 if the student is allegedly ~~allopathic physicians or physician assistants under chapter 458, osteopathic physicians or physician assistants under chapter 459, nurses under chapter 464, or pharmacists under chapter 465 who are alleged to be~~ impaired as a result of the misuse or abuse of alcohol or drugs, or both, or due to a mental or physical condition. The department is not responsible ~~under any circumstances~~ for paying for the ~~costs of~~ care provided by approved treatment providers or a consultant~~, and the department is not responsible for paying the costs of consultants' services provided for students~~.

(d) A medical school accredited by the Liaison Committee on Medical Education or ~~of~~ the Commission on Osteopathic College Accreditation, or another ~~other~~ school providing for the education of students enrolled in preparation for licensure as a health care practitioner as defined in this chapter or a

veterinarian under chapter 474 ~~allopathic physicians under chapter 458 or osteopathic physicians under chapter 459,~~ which is governed by accreditation standards requiring notice and the provision of due process procedures to students, is not liable in any civil action for referring a student to the consultant retained by the department or for disciplinary actions that adversely affect the status of a student when the disciplinary actions are instituted in reasonable reliance on the recommendations, reports, or conclusions provided by such consultant, if the school, in referring the student or taking disciplinary action, adheres to the due process procedures adopted by the applicable accreditation entities and if the school committed no intentional fraud in carrying out the provisions of this section.

(3) Each board and profession within the Division of Medical Quality Assurance may delegate to its chair or other designee its authority to determine, before certifying or declining to certify an application for licensure to the department, that an applicant for licensure under its jurisdiction may be impaired as a result of the misuse or abuse of alcohol or drugs, or both, or due to a mental or physical condition that could affect the applicant's ability to practice with skill and safety. Upon such determination, the chair or other designee may refer the applicant to the consultant for an evaluation before the board certifies or declines to certify his or her application to the department. If the applicant agrees to be evaluated by the consultant, the department's deadline for approving or denying the application pursuant to s. 120.60(1) is tolled until the evaluation is completed and the result of the

evaluation and recommendation by the consultant is communicated to the board by the consultant. If the applicant declines to be evaluated by the consultant, the board shall certify or decline to certify the applicant's application to the department notwithstanding the lack of an evaluation and recommendation by the consultant.

(4) ~~(3)~~ (a) Whenever the department receives a written or oral legally sufficient complaint alleging that a licensee under the jurisdiction of the Division of Medical Quality Assurance within the department is impaired as a result of the misuse or abuse of alcohol or drugs, or both, or due to a mental or physical condition which could affect the licensee's ability to practice with skill and safety, and no complaint against the licensee other than impairment exists, the reporting of such information shall not constitute grounds for discipline pursuant to s. 456.072 or the corresponding grounds for discipline within the applicable practice act if the probable cause panel of the appropriate board, or the department when there is no board, finds:

1. The licensee has acknowledged the impairment problem.

2. The licensee has voluntarily enrolled in an appropriate, approved treatment program.

3. The licensee has voluntarily withdrawn from practice or limited the scope of practice as required by the consultant, in each case, until such time as the panel, or the department when there is no board, is satisfied the licensee has successfully completed an approved treatment program.

4. The licensee has executed releases for medical records, authorizing the release of all records of evaluations,

diagnoses, and treatment of the licensee, including records of treatment for emotional or mental conditions, to the consultant. The consultant shall make no copies or reports of records that do not regard the issue of the licensee's impairment and his or her participation in a treatment program.

(b) If, however, the department has not received a legally sufficient complaint and the licensee agrees to withdraw from practice until such time as the consultant determines the licensee has satisfactorily completed an approved treatment program or evaluation, the probable cause panel, or the department when there is no board, shall not become involved in the licensee's case.

(c) Inquiries related to impairment treatment programs designed to provide information to the licensee and others and which do not indicate that the licensee presents a danger to the public shall not constitute a complaint within the meaning of s. 456.073 and shall be exempt from the provisions of this subsection.

(d) Whenever the department receives a legally sufficient complaint alleging that a licensee is impaired as described in paragraph (a) and no complaint against the licensee other than impairment exists, the department shall forward all information in its possession regarding the impaired licensee to the consultant. For the purposes of this section, a suspension from hospital staff privileges due to the impairment does not constitute a complaint.

(e) The probable cause panel, or the department when there is no board, shall work directly with the consultant, and all information concerning a practitioner obtained from the

consultant by the panel, or the department when there is no board, shall remain confidential and exempt from the provisions of s. 119.07(1), subject to the provisions of subsections ~~(5) and~~ (6) and (7).

(f) A finding of probable cause shall not be made as long as the panel, or the department when there is no board, is satisfied, based upon information it receives from the consultant and the department, that the licensee is progressing satisfactorily in an approved impaired practitioner program and no other complaint against the licensee exists.

(5)~~(4)~~ In any disciplinary action for a violation other than impairment in which a licensee establishes the violation for which the licensee is being prosecuted was due to or connected with impairment and further establishes the licensee is satisfactorily progressing through or has successfully completed an approved treatment program pursuant to this section, such information may be considered by the board, or the department when there is no board, as a mitigating factor in determining the appropriate penalty. This subsection does not limit mitigating factors the board may consider.

(6)~~(5)~~(a) An approved treatment provider shall, upon request, disclose to the consultant all information in its possession regarding the issue of a licensee's impairment and participation in the treatment program. All information obtained by the consultant and department pursuant to this section is confidential and exempt from the provisions of s. 119.07(1), subject to the provisions of this subsection and subsection (7)~~(6)~~. Failure to provide such information to the consultant is grounds for withdrawal of approval of such program or provider.

(b) If in the opinion of the consultant, after consultation with the treatment provider, an impaired licensee has not progressed satisfactorily in a treatment program, all information regarding the issue of a licensee's impairment and participation in a treatment program in the consultant's possession shall be disclosed to the department. Such disclosure shall constitute a complaint pursuant to the general provisions of s. 456.073. Whenever the consultant concludes that impairment affects a licensee's practice and constitutes an immediate, serious danger to the public health, safety, or welfare, that conclusion shall be communicated to the State Surgeon General.

(7) ~~(6)~~ A consultant, licensee, or approved treatment provider who makes a disclosure pursuant to this section is not subject to civil liability for such disclosure or its consequences. The provisions of s. 766.101 apply to any officer, employee, or agent of the department or the board and to any officer, employee, or agent of any entity with which the department has contracted pursuant to this section.

(8) ~~(7)~~ (a) A consultant retained pursuant to subsection (2), a consultant's officers and employees, and those acting at the direction of the consultant for the limited purpose of an emergency intervention on behalf of a licensee or student as described in subsection (2) when the consultant is unable to perform such intervention shall be considered agents of the department for purposes of s. 768.28 while acting within the scope of the consultant's duties under the contract with the department if the contract complies with the requirements of this section. The contract must require that:

1. The consultant indemnify the state for any liabilities

incurred up to the limits set out in chapter 768.

2. The consultant establish a quality assurance program to monitor services delivered under the contract.

3. The consultant's quality assurance program, treatment, and monitoring records be evaluated quarterly.

4. The consultant's quality assurance program be subject to review and approval by the department.

5. The consultant operate under policies and procedures approved by the department.

6. The consultant provide to the department for approval a policy and procedure manual that comports with all statutes, rules, and contract provisions approved by the department.

7. The department be entitled to review the records relating to the consultant's performance under the contract for the purpose of management audits, financial audits, or program evaluation.

8. All performance measures and standards be subject to verification and approval by the department.

9. The department be entitled to terminate the contract with the consultant for noncompliance with the contract.

(b) In accordance with s. 284.385, the Department of Financial Services shall defend any claim, suit, action, or proceeding against the consultant, the consultant's officers or employees, or those acting at the direction of the consultant for the limited purpose of an emergency intervention on behalf of a licensee or student as described in subsection (2) when the consultant is unable to perform such intervention which is brought as a result of any act or omission by any of the consultant's officers and employees and those acting under the

direction of the consultant for the limited purpose of an emergency intervention on behalf of a licensee or student as described in subsection (2) when the consultant is unable to perform such intervention when such act or omission arises out of and in the scope of the consultant's duties under its contract with the department.

(c) If the consultant retained pursuant to subsection (2) is retained by any other state agency, and if the contract between such state agency and the consultant complies with the requirements of this section, the consultant, the consultant's officers and employees, and those acting under the direction of the consultant for the limited purpose of an emergency intervention on behalf of a licensee or student as described in subsection (2) when the consultant is unable to perform such intervention shall be considered agents of the state for the purposes of this section while acting within the scope of and pursuant to guidelines established in the contract between such state agency and the consultant.

(9) An impaired practitioner consultant is the official custodian of records relating to the referral of an impaired licensee or applicant to that consultant and any other interaction between the licensee or applicant and the consultant. The consultant may disclose to the impaired licensee or applicant or his or her designee any information that is disclosed to or obtained by the consultant or that is confidential under paragraph (6)(a), but only to the extent that it is necessary to do so to carry out the consultant's duties under this section. The department, and any other entity that enters into a contract with the consultant to receive the

services of the consultant, has direct administrative control over the consultant to the extent necessary to receive disclosures from the consultant as allowed by federal law. If a disciplinary proceeding is pending, an impaired licensee may obtain such information from the department under s. 456.073.

Section 2. Paragraph (e) of subsection (1) of section 458.331, Florida Statutes, is amended to read:

458.331 Grounds for disciplinary action; action by the board and department.—

(1) The following acts constitute grounds for denial of a license or disciplinary action, as specified in s. 456.072(2):

(e) Failing to report to the department any person who the licensee knows is in violation of this chapter or of the rules of the department or the board. A treatment provider approved pursuant to s. 456.076 shall provide the department or consultant with information in accordance with the requirements of s. 456.076(4), (5), (6), (7), and (9) ~~s. 456.076(3), (4), (5), and (6)~~.

Section 3. Paragraph (e) of subsection (1) of section 459.015, Florida Statutes, is amended to read:

459.015 Grounds for disciplinary action; action by the board and department.—

(1) The following acts constitute grounds for denial of a license or disciplinary action, as specified in s. 456.072(2):

(e) Failing to report to the department or the department's impaired professional consultant any person who the licensee or certificateholder knows is in violation of this chapter or of the rules of the department or the board. A treatment provider, approved pursuant to s. 456.076, shall provide the department or

consultant with information in accordance with the requirements of s. 456.076(4), (5), (6), (7), and (9) ~~s. 456.076(3), (4), (5), and (6)~~.

Section 4. Section 468.315, Florida Statutes, is created to read:

468.315 Treatment program for impaired radiological personnel.—Radiological personnel who are subject to certification under this part are governed by s. 456.076 as if they were under the jurisdiction of the Division of Medical Quality Assurance.

Ms. Norr introduced Rule 64B16-30.001 and discussed the changes made.

Motion: by Dr. Weizer, seconded by Dr. Griffin, to approve the changes. Motion carried.

Motion: by Dr. Weizer, seconded by Mrs. Glass, that there is not an adverse impact on small business. Motion carried.

Motion: by Dr. Weizer, seconded by Dr. Fallon, that the changes will not raise regulatory costs in excess of $200,000. Motion carried.

Ms. Norr introduced Rule 64B16-28.450 and the proposed language that adds institutional pharmacies to the rule.

Martin Dix approached the Board to state that voting to approve the rule for publication does not eliminate the ability to modify the rule.

Larry Gonzalez approached the Board to echo the thoughts of Mr. Dix and urged the Board to move this rule forward.

Mr. Garcia tabled the vote on this rule until later in order to give the Board members a chance to review the language.

Ms. Norr introduced Rule 64B16-28.605 regarding automated distribution and packaging.

Dr. Mesaros requested that, in the future, all the information that is sent to the Committee members be sent to all Board members for review.

Dr. Mesaros updated the Board members and audience of the discussion from the Rules Committee regarding validity of prescriptions.

Ms. Norr informed the Board of Dr. Weizer's suggestion to review Rule 64B16-28.303 and Rule 64B16-28.301 regarding destruction of controlled substances.

Dr. Weizer provided an overview of the aforementioned rules and discussed the reasons for why the rules need to be reviewed.

Motion: by Dr. Mesaros, seconded by Dr. Weizer, to open rules 64B16-28.303 and 28.301 for review. Motion carried.

Mr. Whitten requested that Mr. Garcia appoint two additional members to the Rules Committee.

Mr. Garcia appointed Dr. Weizer and Dr. Griffin to serve on the Rules Committee.

2. Michele Weizer – Compounding Rules Committee Update

Dr. Weizer provided an update from the Compounding Rules Committee and informed the Board and audience of the issues regarding a non-resident pharmacy in Texas having products recalled that they had shipped to Florida.

Dr. Weizer discussed how USP797 is a clarification of the 2008 USP71 rule that is already in existence.

Dr. Weizer informed the Board and audience that a full copy of USP797 is available for review in the Tallahassee Board office.

Mr. Flynn suggested a workshop for the purpose of going through USP797 line by line and exempting the requirements or guidelines that would have an unnecessary disproportionate negative effect on small business.

Ms. Mullins supported the idea of a noticed workshop to review USP797 to allow organizations such as the FPA to have workgroups prepared. Ms. Mullins also emphasized the importance of our rules being clear and defined as opposed to being just a reference to a chapter

Mr. Garcia proposed the formation of a committee comprised of three Board members and six advisors from the field to work on issues such as adoption of USP797.

Mr. Flynn informed the Board and audience that if said committee is to be formed; only the Board members would have voting rights.

Motion: by Ms. Mullins, seconded by Dr. Mesaros, to form a special committee comprised of three Board members and six advisors. Motion carried.

Motion: by Dr. Griffin, seconded by Ms. Mullins, to have the chair of the compounding committee select the advisors for the special committee. Motion carried.

Motion: by Dr. Weizer, seconded by Dr. Fallon, to approve the proposed language in Section 465.0156 Florida Statutes. Motion carried.

Mr. Flynn then introduced the changes to Section 465.0158 Florida Statutes, which refers to the Sterile Compounding Permit.

Ms. Mullins stated, in regards to patient safety, the importance of non-resident sterile compounding pharmacies having to comply with the same sterile compounding rules as our in-state sterile compounding pharmacies.

Motion: by Ms. Mullins, seconded by Dr. Weizer, to approve the addition of language that states non-resident pharmacy sterile compounding standards must be substantially equivalent or greater to the standards in the state of Florida. Motion carried.

Motion: by Dr. Weizer, seconded by Dr. Fallon, to approve the proposed language in Section 465.0158. Motion carried.

Mr. Flynn introduced the changes to Section 465.017 Florida Statutes that would allow the Department to have the authority to enter into a non-resident pharmacy state and perform an inspection at the cost of the licensee.

Motion: by Dr. Weizer, seconded by Ms. Glass, to approve the proposed language in Section 465.017 Florida Statutes. Motion carried.

Ms. Mullins informed the Board and audience about a statement written by NABP taking a position of support on Senate Bill 959 regarding compounding and requested comment from the rest of the Board members.

Dr. Mesaros commented that Florida, as a whole, didn't have a comparative representation to some of the other Boards, Universities, and Associations that were present at the NABP District III meeting. Dr. Mesaros stated his

belief that the statement made by NABP was not to speak for the Boards that don't agree but the cumulative sentiment at the National meeting, which was of support for Bill.

Ms. Mullins stated her belief that Senate Bill 959 is not good for patient care in the current state it exists.

3. Lee Fallon – Report from FPA Meeting

Dr. Fallon provided a report on his trips to the FPA Annual meeting in Orlando as well as the Southeastern Gathering in Destin, FL.

Dr. Fallon reported that he and Mr. Whitten presented one hundred and twenty eight 50-year pharmacist certificates at the end of the FPA Annual meeting. Dr. Fallon stated that many of the recipients were present.

Central Florida Family Health Center, Inc. did not have a representative present.

Motion: by Mr. Meshad, seconded by Ms. Glass, to deny the request. Motion carried.

6. Correspondence – Sister Emmanuel Hospital

Carmen Aceves was present on behalf of Sister Emmanuel Hospital.

Ms. Aceves requested guidance from the Board regarding the necessity for her hospital to acquire the new sterile compounding permit despite the fact that her hospital does not have a sterile products room.

Mr. Flynn advised the Board that the Board cannot issue a license to the hospital if the hospital was unable to comply with all the laws and rules regulating sterile compounding.

Mr. Garcia informed the Board that they would now be revisiting the Rules Committee report to discuss Rule 64B16-28.901.

Possible Violations: F.S. 465.023(1)(c); 465.016(1)(e)(r); 456.072 (1)(j)(o); 893.03; FAC 64B16-28.110: non-compliance with the "Florida Drug and Cosmetic Act"; violating any provision of this chapter or chapter 456; aiding, assisting, procuring, employing, or advising any unlicensed person or entity to practice a profession contrary to this chapter; practicing or offering to practice beyond the scope permitted by law or accepting and performing professional responsibilities the licensee knows, or has reason to know, the licensee is not competent to perform; and, failure of a licensee to take action in correcting the violation(s) within 15 days after notice may result in the institution of regular disciplinary proceedings.

Synopsis: This investigation is predicated upon receipt of an internally generated complaint (EX 1) submitted by the DOH as a result of a routine community pharmacy inspection (#105763) and a compounding inspection on 1/24/12 at PREMIER COMPOUNDING PHARMACY, INC (PREMIER) located in Palm Beach Gardens, FL. It is alleged that during the course of the routine inspection, violations were identified, as noted in the inspection reports (EX 4) including but not limited to: transferring drugs from PREMIER to NORTH COUNTY SURGI-CENTER, including incomplete DEA 222 forms; outdated stock on shelves due to inaccurate inventory/computer entries resulting in incorrect labeling of sub-compounded drugs that appear as expired; and, performing "centralized prescription filling" where PREMIER sends prescriptions to another pharmacy to be filled with their label, the filled prescription is sent back to PREMIER, relabeled and dispensed.

PREMIER'S owner was notified of the investigation in a letter dated 3/7/12 (EX 2) with a copy of the case summary and the DOH's inspection #105763.

A check of the Department computer records revealed that PREMIER COMPOUNDING PHARMACY, INC is currently licensed as a COMMUNITY PHARMACY.

There is no patient involvement; therefore a patient notification letter was not required.

PREMIER COMPOUNDING PHARMACY is **not known to be currently represented by an attorney.**

On 4/9/12, TRACY CHRISTIAN, R.Ph submitted a written response (EX 6) with supporting documents indicating it is her opinion that PREMIER is in compliance.

INVESTIGATIVE DETAILS

On 3/6/12 and subsequent dates, this investigator met with DOH Inspector NINA SAXON, WI 86, to discuss community pharmacy inspection #95178 (EX1) which SAXON performed on 1/23/12 and which generated this complaint. SAXON found the following:

- PREMIER is acting as a wholesaler and is repackaging medications they receive from NORTH COUNTY SURGI-CENTER, which purchases large packages of, but not limited to, Fentanyl in vials of 5ml, for example. These vials are sent to PREMIER who re-packages the Fentanyl in 2ml syringes to control waste. However, neither NORTH COUNTY nor PREMIER hold wholesaler permits; the transfer of the medication is not recorded in DEA 222 forms; PREMIER is not recording the re-packaging procedure and there are no records of traceability maintained at PREMIER.

- Multiple outdated compounds in stock were found in active stock. PREMIER claims the medication was not expired due to a computer generated error. Errors were found on labeling on manual sub-formula compounded drugs and that the computer generated labels were using bar-coded information from the label already in the computer. Staff is correcting the manual worksheet, but not updating the computer and the expired date on the bar-code label. PREMIER indicated they are addressing the issue and a new computer dedicated to the compounding of sterile preparations and bar-code function is forthcoming. It was noted that until the computer generated error is corrected, the expired dates on compounded stock remains incorrect. PREMIER does not know when the computer will be in place.

- PREMIER is performing what they call "centralized prescription filling". It was observed that PREMIER receives prescriptions including for HCG, a compounded hormone primarily used in weight loss; a doctor calls/faxes a prescription to PREMIER, PREMIER transfers the order by fax to KRS PHARMACY. KRS fills the prescription with a KRS label and then sends the filled prescription to PREMIER. PREMIER re-labels the prescription vial with PREMIER's label and dispenses the prescription as the filling pharmacy.

On 5/21/12, a re-inspection was performed at PREMIER with Inspector SAXON, this investigator, along with DOH Investigator, ROB SEIMETZ. Noted during the re-inspection were the following continued violations, with all copies obtained with pictures documented in (EX 5). TRACY CHRISTIAN, R.Ph was present during the re-inspection.

- Medication labels and outdated stock, including compounds were still found in active stock. Additional outdated stock was found during the re-inspection.

- The medication label errors discovered during the initial inspection were to be corrected once the new computer system was in place, per CHRISTIAN's response (EX 6). The computer has been installed and in use, however the labels have not been corrected with the proper bar-coded information. On 5/21/12, CHRISTIAN advised this would be corrected immediately.

- During the re-inspection, it was noted that employees utilizing the new computer are not entering their names at the time of sign-in, causing entries to be under the previous logged in user's name. The user name error potentially affects formula worksheets and all prescription documentation, if not corrected at sign-in. CHRISTIAN indicated immediate attention would be given to computer accuracy training.

- The DEA 222 forms inspected appeared to be completed adequately. CHRISTIAN was advised to have the receiver of the medications to sign for the receipt within the body of the form since the purchaser is not always the receiver.

- It was noted on the DEA 222 forms inspected that PREMIER continues to re-package Fentanyl for surgi-centers. CHRISTIAN indicated on 5/21/12 she has also diluted and repackaged Fentanyl at an institution's request, copies were provided. PREMIER's repackaging use to be in small vials; CHRISTIAN indicated syringes are preferable and most commonly requested. CHRISTIAN indicated it is her understanding that a Pharmacy wholesale permit is not required for "repackaging." CHRISTIAN's opinion is that she is compliant if the repackaging is for "institutional use".

- PREMIER also compounds Avastin 25 mg/ml 0.05ml injectable which is repackaged at 0.05ml into 30G insulin syringes. CHRISTIAN indicated it is held at PREMIER and filled as needed.

- CHRISTIAN indicated PREMIER accepted HCG (Human Chorionic Gonadotropin) prescriptions along with other hormone treatment prescriptions. PREMIER does not carry HCG and has to forward the requests to GBTRX in Boca Raton, FL. In the past, PREMIER would receive the filled prescription and dispense with PREMIER's label. CHRISTIAN indicated she discontinued this practice recently and no longer accepted prescriptions for HCG; a communication was sent to referring physicians that as a service to physicians and patients, PREMIER would continue to forward the HCG prescriptions to GBTRX, a pharmacy in Boca Raton, FL; however the filled prescription would be dispensed directly from GBTRX to the patient.

- There were various licensed registered pharmacy technicians present during the inspection, including JENNIFER DIVELY, a technical student in training who was working under CHRISTIAN's direct supervision. DIVELY was advised to email her credentials and transcript to the Board of Pharmacy.

- CHRISTIAN advised that PREMIER keeps a perpetual inventory of controlled substances II and III's. It was also observed that there was currently an overage in stock of six-Oxycodone 15 mg pills; CHRISTIAN was not aware of this. She advised she does not actively participate in the inventory process. It was suggested that she could strengthen the controls in place by signing-off at some interval of the inventory process.

SUMMARY OF EXHIBITS/RECORDS/DOCUMENTS

Exhibit 1 contains copies of the completed community pharmacy inspection 105763 on PREMIER COMPOUNDING PHARMACY, INC on 1/24/12. Included are SAXON's complaint forms and remarks.

Exhibit 3 are SAXON's work sheets and copies of various supports she obtained during the routine inspection on 1/24/12 including but not limited to, DEA 222 forms, a biennial inventory dated 1/10/11; and prescription logs for the period 11/1/11 – 1/24/12. Included is a copy of a Central Fill Pharmacy Contract between Premier Compounding and KRS Global Biotechnology dated 6/14/10.

Exhibit 4 includes three previous pharmacy inspections performed by DOH Inspector NINA SAXON at Premier Compounding, with TRACY CHRISTIAN R. Ph. Inspection # 95178 dated 1/4/11. In addition to a few administrative non-compliance findings, SAXON noted records were not separated by drug class; that a controlled substance biennial inventory had not been performed; and that DEA 222 forms had not been completed correctly; CQI meetings were not documented as required and a disclosure statement was missing from the daily sign in log.

A routine pharmacy inspection #84663 was attempted on 9/10/09 by SAXON, with TRACY CHRISTIAN, R.Ph. present, however SAXON noted required records were missing and the inspection was failed. A re-inspection was performed on 9/21/09 and documented on the same inspection # 84663. Among general administrative findings noted, the dispensing logs were found to be incomplete, inconsistent and not printed daily, and that records were not separated by drug class as required.

PREMIER's New Pharmacy Inspection #77743 dated 7/10/08 indicated Premier passed with minor operational findings: phone rolled over to a personal cell and P&P needed to be printed.

Exhibit 5 includes copies of PREMIER's re-inspection on 5/21/12, with copies of samples and pictures taken during the inspection, including communications from PREMIER to physicians regarding HCG prescriptions, copies of formula worksheets, copies of logs for Fentanyl prescription orders dispensed; Control II and III perpetual inventories, copies of DEA 222 forms; pictures of expired medications and compounds.

On 3/6/12 and subsequent dates, this investigator met with DOH Inspector NINA SAXON, WI 86, to discuss routine community pharmacy inspection #95178 (EX1) performed on 1/23/12, which generated this complaint. All communications, including the subsequent re-inspection (EX 5) done on 5/21/12 with SAXON, are detailed within the INVESTIGATIVE DETAILS section.

STATEMENT OF TRACY L. CHRISTIAN, R.Ph. (WITNESS)
18169 Woodside Trail
Jupiter, FL 33458
O: (561) 691-4991

On 3/21/12, CHRISTIAN provided a written statement (EX 6). On 4/18/12 and subsequent dates, she spoke with this investigator, and details of the re-inspection are in the INVESTIGATIVE DETAILS section; in a combination of all communications, she essentially stated:

- She is the PDM and President at PREMIER COMPOUNDING PHARMACY, INC since it opened in 2008.

- She admitted "some blank spaces" had been found on "some DEA 222 forms" as noted by SAXON during the inspection. CHRISTIAN indicated the pharmacists at Premier "are more comfortable ordering Control II substances online, therefore they are unfamiliar with the manual/hard copy form".

- She denied Premier is not signing in and out received Fentanyl. CHRISTIAN indicated there are DEA 222 forms receiving (EX 6) Schedule II and IIIs and other DEA 222s showing Schedule II and IIIs leaving Premier, She submitted copies of forms involving North County Surgi-Center.

Investigator's notes: Copies submitted by CHRISTIAN (EX 6) are not identical to those submitted by SAXON (EX 4).

- She denied Premier is not recording the re-packaging procedure. She indicated Premier has formula worksheets for each compounding manipulation performed which outlines the process for each item. Examples are in (EX 6).

- CHRISTIAN disagrees that there are no records of traceability at the facility.

- CHRISTIAN indicated in her written response dated 3/21/12 (EX 6) that the expired medications found in the pharmacy's sterile compounding area are not expired, but are labeled as such due to a computer issue and corrections are made manually. This will be corrected within two weeks of the response when a new computer and server are installed.

- The re-inspection (EX 5) done on 5/21/12 showed evidence that expired medications and compounds are still in active stock.

- CHRISTIAN denied PREMIER is working out of scope of a community pharmacy without a wholesaler license. CHRISTIAN indicated that according to Rule 64B16-28.450 she is filling prescriptions under centralized prescription rules and not acting as a wholesaler. Samples of orders were obtained during the re-inspection (EX 5).

Furthermore, should this Settlement Agreement not be accepted by the Board, it is agreed that the presentation and consideration of this Settlement Agreement and other documents and matters by the Board shall not unfairly or illegally prejudice the Board or any of its members from further participation, consideration, or resolution of these proceedings.

9. **Not Preclude Additional Proceedings**- Respondent and the Department fully understand that this Settlement Agreement as approved and incorporated into the Final Order will not preclude additional proceedings by the Board or Department against Respondent for acts or omissions not specifically set forth in the Administrative Complaint.

10. **Waiver of Attorney's Fees and Costs**- Respondent waives the right to seek any attorney's fees and costs from the Department in connection with this disciplinary proceeding.

INVESTIGATIVE DETAILS

SUMMARY OF EXHIBITS/RECORDS/DOCUMENTS

Exhibit 1 is a copy of the Case Summary and Attachments. Included in those documents was a written statement from the source and emergency department discharge form.

In the statement, R.M. wrote that M.M. was dispensed Gabapentin, which is used an anti-seizure medication. M.M. later realized that she was prescribed Nitrofurantoin, which is given to treat urinary tract infections.

The discharge form from PALMS OFPASADENA HOSPITAL, dated 10/28/2012, indicated that M.M. was diagnosed with a urinary tract infection (UTI). The emergency room physician prescribed 100mg Nitrofurantoin tablets.

Exhibit 5 is a subpoena, dated 12/11/2012, for the patient records of M.M., from Palms of Pasadena Hospital, prior to her discharge on 10/28/2012.

On 01/14/2013, documents requested by subpoena were received (**Exh. 6**). The record included all medical documentation for M.M. while admitted at Palms of Pasadena Hospital on 10/28/2012 to the completion of data entry of her emergency room visit on 10/29/2012.

The record indicated that M.M. arrived in the emergency room on 10/28/2012 with a chief complaint of a "possible bladder infection" (pg. 53). After testing, M.M. was diagnosed with a Urinary Tract Infection (UTI). Dr KAIVON MADINI prescribed "Nitrofurantoin Tablet 100mg" for that diagnosis (pg.73).

A note in the Emergency Department Visit Record indicated that M.M. contacted the hospital and informed them that she had received Gabapentin, not Nitrofurantoin, which was filled at Walgreens. The note also stated, "PT JUST CALLED BACK AND TOLD ME IT WAS WALGREENS THAT MADE THE ERROR" (pg. 87).

On 01/10/2013, this investigator went to Walgreen Company located at 337 75th Ave., St. Petersburg, FL 33706 to gather information pertaining to this complaint (**Exh. 7**). Information collected included a patient profile, the last non-confidential CQI after the incident, staff on duty during the alleged incident, a copy of the prescription filled, and number of prescriptions filled.

The patient profile, of M.M., indicated that M.M. was dispensed 14 tablets of 100Mg Gabapentin and 14 tablets of 100Mg Nitrofurantoin on 10/29/2012. The most recent CQI, conducted after the alleged incident, did address the issue of misfills (pg. 98). The prescription, initially filled, was clearly typed and stated the following Sig: Nitrofurantoin Tablet 100MG 1 tab POBID 7 days #14(fourteen). There were 106 prescriptions filled at that location on 10/29/2012. The only personnel in the pharmacy at the time of fill were CODY FAY BALLENCE, R.PH. and MYKEL CHANEL THOMAS, R.PT. The Pharmacy Department Manager indicated that the original container of medication was discarded.

Exhibit 8 contains the Confidential Index.

1) INFORMATION FROM R.M., Patient's Husband - Source

In a face-to-face interview conducted at the complainant's home on 01/07/2013, R.M. gave a statement that mirrored his written statement, submitted at the time of complaint (pgs. 7-8). R.M. stated that he had nothing more to add.

2) INTERVIEW OF M.M., Patient - WITNESS

In a face-to-face interview conducted at the patient's home on 01/07/2013, M.M. stated that she took one tab of the Gabapentin before reading the information pamphlet attached to the medication. After reading the information packet, M.M. discontinued use of the medication and contacted the hospital and the pharmacy immediately.

The dispensing pharmacist was still on duty, and apologized to M.M. once he was aware of the mistake. M.M. stated that a refund for the medication was given to her, as well as, a $50 gift card to Walgreens. M.M. gave the Gabapentin back to the pharmacist and received the correct medication at that time.

This investigator asked M.M. if she experienced any adverse side effects or went back to the hospital, for exam, as a result of taking the medication. DEPARTMENT OF HEALTH,

PETITIONER,

V. **CASE NO. 2012-16397**

JESSICA DANIELLE BRAMBLE, R.P.T.,

RESPONDENT.

ADMINISTRATIVE COMPLAINT

Petitioner Department of Health, by and through its undersigned counsel, files this Administrative Complaint before the Board of Pharmacy against Respondent, Jessica Danielle Bramble, R.P.T., and in support thereof alleges:

1. Petitioner is the state department charged with regulating the practice of pharmacy pursuant to Section 20.43, Florida Statutes; Chapter 456, Florida Statutes; and Chapter 465, Florida Statutes.

2. At all times material to this Order, Respondent was a licenses registered pharmacy technician (RPT) operating within the State of Florida, pursuant to Chapter 465, Florida Statutes, holding permit number RPT 24357.

EXHIBIT A

3. Respondent's address of record is 22393 Oceanside Avenue, Port Charlotte, Florida 33952.

4. At all time material to this complaint, Respondent was employed as a RPT at Health Park Medical Center (HPMC) located in Lee County, Florida.

5. HPMC utilizes the Pyxis automated medication dispensing system ("Pyxis"). Pyxis is a locked cart that contains controlled substances and is accessed through the use of a computer. Each time a nurse removes a controlled substance from the Pyxis cart, he or she must identify the patient for whom the medication is intended. If the dose available in the Pyxis cart is greater than the dose designated by the physician, the nurse must discard the excess in the presence of a witness and document doing so in the Pyxis computer. This is done to accurately account for controlled substances removed and to assure proper billing of the patient for nursing care provided. To accurately record care rendered to the patient, all medications administered must be documented in the patient's record.

6. Additionally, HPMC's Pyxis system included a biometric scanner which required fingerprint confirmation for each entry into the system.

7. HPMC utilizes the DSX access control system. The DSX access control system maintains record of each access via a secured electronic database requiring a unique identifier for each use.

8. On or about January 22, 2012, Respondent was witnessed by HPMC staff entering multiple medication rooms on multiple floors at HPMC.

9. On or about January 23, 2012, an investigation was initiated by HPMC into the Respondent's actions and entries into the Pyxis medication system.

10. As a result of this investigation, HPMC was able to obtain records which showed that the Respondent entered medication rooms and accessed Pyxis machines when she had no legitimate reason to do so.

11. On or about February 1, 2012, Respondent participated in a recorded telephonic interview with HPMC staff.

12. During the course of this interview, Respondent admitted to accessing various Pyxis machines at HPMC without a legitimate reason to do so, and removing hydromorphone.

13. Hydromorphone is prescribed to treat pain. According to Section 893.03(2), Florida Statutes, hydromorphone is a Schedule II controlled substance that has a high potential for abuse and has a currently

accepted but severely restricted medical use in treatment in the United States, and abuse of hydromorphone may lead to severe psychological or physical dependence.

14. Additionally, Respondent admitted to substituting the hydromorphone with sterile water and returning it to the Pyxis machine.

15. Section 499.006(8)(b), Florida Statutes (2011), provides that a drug is adulterated if any substance has been substituted wholly or in part.

COUNT ONE

16. Petitioner realleges and incorporates paragraphs one (1) through fifteen (15), as if fully set forth herein.

17. Section 465.016(1)(e), Florida Statutes (2011), provides that a registered pharmacy technician can be disciplined, including suspension, for violating a provision of Chapter 893, Florida Statutes.

18. Section 893.13(7)(a)(9), Florida Statutes, prohibits a person from acquiring or obtaining, or attempting to acquire or obtain, possession of a controlled substance by misrepresentation, fraud, forgery, deception, or subterfuge.

19. Respondent violated Section 465.016(1)(e), Florida Statutes (2010), by violating Section 893.13(7)(a)(9), Florida Statutes, by obtaining

hydromorphone, a controlled substance by fraudulent means, as admitted during her recorded interview with a HPMC staff.

20. Based on the foregoing, Respondent has violated Section 465.016(1)(e), Florida Statutes (2011), by admitting to a violation of Section 893.13(7)(a)(9), Florida Statutes.

COUNT TWO

21. Petitioner realleges and incorporates paragraphs one (1) through fifteen (15), as if fully set forth herein.

22. Section 465.016(1)(e), Florida Statutes (2011), provides that a registered pharmacy technician can be disciplined, including suspension, for violating a provision of Chapter 499, Florida Statutes.

22. Section 499.006(8)(b), Florida Statutes (2011), provides that a drug is adulterated if any substance has been substituted wholly or in part

23. Section 499.005(4), Florida Statutes (2011), provides that the receipt of any drug, device, or cosmetic that is adulterated or misbranded, and the delivery or proffered delivery of such drug, device, or cosmetic, for pay or otherwise is grounds for disciplinary action.

24. Respondent admitted to substituting hydromophone with sterile water and returning it to the Pyxis machine at HPMC.

25. Based on the foregoing, Respondent violated Section 465.016(1)(e), Florida Statutes (2011), by violating Section 499.005(4), Florida Statutes (2011), by admittedly substituting hydromorphone with sterile water and returning it to the Pyxis machine.

WHEREFORE, the Petitioner respectfully requests that the Board of Nursing enter an order imposing one or more of the following penalties: permanent revocation or suspension of Respondent's license, restriction of practice, imposition of an administrative fine, issuance of a reprimand, placement of the Respondent on probation, corrective action, refund of fees billed or collected, remedial education and/or any other relief that the Board deems appropriate.

Re: DOH vs. DRM Enterprises, Inc.

Dear Mr. Weekley:

We are in receipt of your client's executed Voluntary Relinquishment form. As you are aware by signing the Voluntary Relinquishment of License form your client agreed to the following:

- the Voluntary Relinquishment would be considered disciplinary action against their license, pursuant to Section 456.072(1)(f), Florida Statutes;
- he/she would never reapply for licensure as a Pharmacy in the State of Florida; and
- Voluntarily relinquishing his/her Florida pharmacy license may have an effect on pharmacy licenses they may hold in other states.

If this is not what you or your client understood, please contact me as soon as possible to discuss, at 850-245-4444. Otherwise, this case will proceed as planned, and the Florida Board of Pharmacy will take up your client's request for Voluntary Relinquishment of License at their next regularly scheduled meeting. You are not required to attend the meeting.

Michael S. Lawrence, Jr.

Synopsis: This SUPPLEMENTAL report is predicated upon receipt of the Voluntary Relinquishment form executed by BENDER on 7/22/13 (EX# S-1).

Additionally on 7/22/13, CVS Regional Loss Prevention Manager ADALBERT MARTINEZ was interviewed by Investigator SENIOR via telephone (954-649-2452), essentially confirming the details reported in the police report are accurate. On 6/7/13 a patient's prescription was filled for 30 Oxycodone pills. On 7/10/13 when the patient presented to pick up that prescription, the pills could not be found. There was no eye witness or surveillance footage available. MARTINEZ' internal investigation entailed his review of staffing schedules for the date the prescription was filled (6/7/13). He intended on interviewing all staff present that day. BENDER happened to be the first person MARTINEZ interviewed. BENDER admitted to taking the filled patient's prescription. BENDER detailed that she had a neighbor who had recently been diagnosed with cancer and BENDER wanted to help her find pain relief. On 6/7/13 BENDER saw the opportunity and removed the vial of filled Oxycodone (30 count) from the "waiting bin" area of the pharmacy. BENDER placed the vial in her pocket, went home and reportedly gave the neighbor the vial.

During questioning, MARTINEZ asked BENDER if there were any other missing medications they should know about. BENDER then further admitted that around 6/20/13 she took an entire stock bottle of 120 count Hydrocodone from the shelf, placed it in her pocket, and took it home, again reportedly for the neighbor. MARTINEZ confirmed that the pharmacy had not been aware of the missing bottle of Hydrocodone at that point. Along with the Pharmacy Supervisor, an inventory of Hydrocodone was conducted and a great deal of Hydrocodone was confirmed missing. This led to the further investigation and arrest of a second Pharmacy Technician. MARTINEZ provided a copy of BENDER's written statement regarding the above details, as well as a Promissory Note completed by BENDER, and medication pricing documents (EX#S-4).

Synopsis: This investigation is predicated upon receipt of an internally-generated complaint (EX#1) from DOH's CSU indicating internet news media reported BENDER was arrested 7/10/13 in Port Saint Lucie for grand theft of controlled substances. BENDER allegedly admitted to stealing Oxycodone and Hydrocodone from her employer: CVS Pharmacy, located in Saint Lucie West.

BENDER was notified of this investigation via telephone and certified letter dated 7/17/13 (EX#2) and was provided a copy of the Case Summary, complaint, and a voluntary relinquishment form.

Per DOH licensure database records, BENDER is a licensed Registered Pharmacy Technician.

There is no direct patient involvement, thus patient notification is unnecessary.

BENDER is not known to be currently represented by an attorney in this DOH matter.

In a telephonic statement, BENDER admitted to the essence of the allegation, although clarified that she only stole a hand fill of Hydrocodone and did not take the Oxycodone as the media has reported. BENDER will consider voluntarily relinquishing her license, possibly in the near future.

INVESTIGATIVE DETAILS

DOH CSU reviewed an internet news report from palmbeachpost.com (EX#1) advising BENDER, while employed at CVS Pharmacy in Saint Lucie West, admitted to taking a patient's prescription of 30 Oxycodone pills. BENDER reportedly also admitted that two weeks prior she stole a stock bottle of Hydrocodone. BENDER was reportedly arrested by Port Saint Lucie Police Department on 7/10/13. Police reports confirm she was charged with two counts of theft of a controlled substance. BENDER reportedly stated she stole the medications for an ailing neighbor; however the neighbor reportedly moved away with no further contact info provided by BENDER.

SUMMARY OF RECORD

EX#3 is the police report from Port Saint Lucie Police Department (PD agency case# 13-11934) advising on 7/10/13 CVS staffer reported a missing prescription filled on/around 6/7/13 for 30 Oxycodone. The prescription was filled, but when the customer came to pick it up, it was missing and never found. CVS loss prevention department did an investigation. There were no witnesses or surveillance footage available. CVS Loss Prevention Manager ADALBERT MARTINEZ narrowed down the time frame of when the prescription went missing and narrowed down to two employees that would have been around at that time. Upon interviewing one of the employees: BENDER, she admitted to taking the prescription. BENDER gave MARTINEZ a written statement explaining that she stole the prescription. BENDER further admitted to taking a stock bottle of Hydrocodone about two weeks ago; which had not been known to CVS until BENDER's admission.

When PSL PD made contact with BENDER, she said she stole prescription medication from the pharmacy. BENDER admitted to taking the prescription that was filled for the customer and also took a bottle of Hydrocodone from the pharmacy shelf about two weeks ago. BENDER states the pills are all now gone and she is unable to get them back. BENDER states she gave the pills to a neighbor and did not receive any compensation for them. BENDER claims the neighbor had cancer and could not afford the pain pills. The neighbor asked BENDER to get the pills for her. BENDER would not provide any information on the neighbor, claiming the neighbor moved away about a week ago.

INVESTIGATOR'S NOTE:

Attempts were made to contact/interview/obtain statements from any CVS staffer who may have been witnessed to or familiar with the investigation of this matter. Contact with CVS store Pharmacist BRAD WHEELER, RPH lead to being referred to NICOLE POWERS, District Pharmacy Supervisor (401-665-8017). WHEELER stated he was advised to not make any statements about the matter. POWERS was unable to provide needed details and referred this investigator to ADALBERT MARTINEZ, Regional Loss Prevention Manager (954-649-2452). Messages left for MARTINEZ have not yet been returned. If/when additional information is received from CVS it will be relayed to DOH's PSU in a supplemental report.

INTERVIEW OF MALISSA SUE BENDER, RPT-SUBJECT

Current address:
231 SW Palm Dr., Apt 108
Port Saint Lucie, FL 34986
(772) 626-3014

On 7/17/13 BENDER was interviewed by Investigator SENIOR via telephone, essentially stating:

- BENDER confirms that approximately one month ago, she moved from her address of record to the above-indicated address. She was advised of her obligation to update same with the Board.

- BENDER admits that the general essence of the news report (EX#1) is true; but they do not have the exact details correct.

- BENDER admits while employed at CVS Pharmacy as a Pharmacy Technician, she did steal a handful of Hydrocodone pills. BENDER states there is no truth that she stole Oxycodone pills as reported. She is aware that a patient came in to the pharmacy to pick up their Oxycodone prescription and it was missing; however she had nothing to do with that.

- BENDER states the reason she stole the Hydrocodone was that someone she knew from being a pharmacy customer could not afford their medication; so BENDER stole some pills for that person.

- BENDER denies stealing pills for her personal use or to sell the pills. BENDER denies having any substance abuse problem and does not require any treatment or evaluation for same.

- BENDER states she will likely strongly consider voluntarily relinquishing her license. Once she receives and reviews the complaint and VR documents, she will re contact this investigator to discuss further.

- BENDER states she has not entered any plea in the corresponding criminal court matter; and there is no trial date set as of yet.

INTERVIEW/STATEMENT OF ANONYMOUS COMPLAINANT - Source

Address of Record:

On 01/10/2013, Investigator Hill received an anonymous complaint questioning why CHENOWETH is practicing pharmacy in Florida, and whether CHENOWETH has reported her Arizona discipline and revocation to Florida. CHENOWETH's Arizona license was placed on probation in 2002 for diverting controlled substances. This discipline was reported to the Florida Board of Pharmacy at the time of licensure. CHENOWETH was again disciplined by the Arizona Board of Pharmacy in 2008 for writing a new prescription for herself, and refilling two other prescriptions without authorization from her doctor. CHENOWETH's Arizona license was revoked on 09/20/2010. (EXHIBIT #1)

INTERVIEW/STATEMENT OF DEBORAH LOUISE CHENOWETH - Subject

Address of Record: **17363 Meadow Lake Circle**
Fort Myers, FL 33967
239-985-2239

CHENOWETH responded to notification of this complaint via letter, received on 04/08/2013. CHENOWETH states her Arizona license was on probation when she applied licensure in Florida, and she was placed on one year probation by the Florida Board of Pharmacy when she obtained her Florida license. CHENOWETH states her probation in Arizona was not for diverting controlled substances, it was a result of her self-reporting to a group similar to PRN in June 2001. CHENOWETH states she hired an attorney in 2002 after having problems with the group, and the Arizona probation followed. CHENOWETH states she was at the end of her probation when she moved to Florida in 2007. CHENOWETH states she had no intention of working or living in Arizona again, so she didn't feel the need to respond. CHENOWETH returned to Arizona in 2007 to work until her Florida license was approved. In November 2007, while working as a floating pharmacist at Walgreens in Tucson, AZ, CHENOWETH contacted her physician in Florida and requested two refills and a new prescription for Amoxicillin. CHENOWETH admits that she took the medication out of the pharmacy expecting them to be approved, but the prescriptions were denied after she left the store. CHENOWETH reports that she billed her insurance company for the medications, but she has paid restitution. CHENOWETH states her Arizona license was revoked for failure to pay the civil penalty, which she was unable to pay due to financial hardships. CHENOWETH states she wasn't aware of her requirement to report her Arizona license revocation to the Florida Board of Pharmacy. CHENOWETH further states she knew that she would never return to Arizona so the license revocation wasn't an issue for her. CHENOWETH reports that she hasn't worked as a pharmacist since September 2012.

Dear Mr. Cairns:

We are in receipt of your executed Voluntary Relinquishment form. As you are aware by signing the Voluntary Relinquishment of License form, you agreed to the following:

- the Voluntary Relinquishment would be considered disciplinary action against your license, pursuant to Section 456.072(1)(f), Florida Statutes;

Synopsis:

This supplemental investigation is predicated upon receipt of a telephone call from FDLE Special Agent G. DANDELAKE on 07/25/13 asking this Investigator if a voluntary relinquishment could be drafted for CAIRNS as part of a criminal case plea agreement. On 07/25/13 this Investigator left a voicemail message as well as sent an email to SHAFFER CLARIDGE, ESQ./PSU asking him to please draft a voluntary relinquishment for CAIRNS. On the afternoon of 07/29/13 CLARIDGE sent this Investigator an email containing a copy of the voluntary relinquishment, and this Investigator forwarded a copy of the relinquishment to DANDELAKE. On 07/29/13 this Investigator along with DANDELAKE traveled to the Duval County Courthouse where this Investigator executed the voluntary relinquishment on CAIRNS pharmacy license in front of CAIRNS, his attorney and the presiding judge. This Investigator was not able to collect CAIRNS' wall and/or wallet licenses due to CAIRNS having resided in a mental health facility since 05/13. On 07/29/13 this Investigator scanned and emailed a copy of the executed voluntary relinquishment to CLARIDGE. CAIRNS plead guilty to Trafficking in Illegal Drugs 4 grams to less than 14 grams of Hydrocodone, was adjudged guilty, given 10 years of probation, has to successfully complete the Hanley Centers Secured Residential Treatment Program, and has to voluntarily relinquish his Florida pharmacist license as well as never seek to reinstate his pharmacist license through the Florida Department of Health.

On 04/03/13 this Investigator traveled to the Duval County Jail, made contact with CAIRNS and let him read the Notification letter (he is in solitary confinement and was not allowed to have the letter in his cell). - Copy of an affidavit for arrest warrant for CAIRNS dated 03/27/13.

Exhibit 3 is a copy of a St. John's County Sheriff's Office Offense Report dated 03/24/13 indicating they responded to CAIRNS' residence in reference to suspicious circumstances, and CAIRNS informed them for the past two years he had been stealing prescription medications from Target pharmacy located at 9525 Crosshill Drive, Jacksonville, FL 32222 while he was the pharmacy manager received on 04/03/13 via hand delivery from FDLE. CAIRNS admitted to recently stealing: Alprazolam 1mg 500 count, Alprazolam 2mg 500 count, 3 bottles of testosterone, Zolpiden 10mg 500 count (two bottles), Hydrocodone 10/500mg 500 count (two bottles) and Oxycodone ER 80mg count 11 (expired medication). CAIRNS further stated that he had taken the aforementioned medications and buried them in his parent's front yard in Windamere, FL. Included with the offense report is a copy of a sworn affidavit dated 03/24/13 written by CAIRNS admitting to stealing the drugs from Target pharmacy.

Exhibit 4 is a copy of a Jacksonville Sheriff's Office (JSO) field investigation report dated 03/27/13 in which JSO patrol officer R.J. REEVES met with CAIRNS at the Target pharmacy where CAIRNS was a pharmacist,received on 04/03/13 via hand delivery from FDLE. CAIRNS again admitted that he had been stealing drugs from the Target pharmacy and that he felt Target was on to him so he wanted to "come clean about his activities." CAIRNS then began to make statements of having suicidal ideations and threats to possibly harm himself, and out of concern for CAIRNS' safety and the safety of others CAIRNS was taken into protective custody under the provisions of the "Baker Act" and transported to the Mental Health Center of Jacksonville.

Exhibit 5 is a copy of a JSO field investigation report dated 03/30/13 in which patrol officer T.L. TERRELL responded to a call from FDLE regarding an individual who was parked in the law enforcement parking lot of the FDLE Jacksonville Communications Center who indicated he had an explosive device under the driver's seat of his vehicle received on 04/03/13 via hand delivery from FDLE. Nothing out of the ordinary was discovered under the driver's seat of the vehicle or anywhere else in the vehicle. The vehicle belonged to CAIRNS and CAIRNS was the driver of the vehicle and when asked why he was there, CAIRNS responded he was trying to get in touch with the FDLE agent to meet with DANDELAKE. CAIRNS indicated he had been arrested on 03/27/13 for stealing

prescription medication from a Target pharmacy where he worked and that he had been seen at mental health clinics before. CAIRNS was again transported to the Mental Health Center of Jacksonville under the provisions of the Baker Act and placed into protective custody for his and others safety.

Exhibit 6 is a copy of a FDLE arrest and booking report dated 04/01/13 indicating DANDELAKE was contacted by CAIRNS on the morning of 03/30/13 and stated that he believed he was being watched and followed, received on 04/03/13 via hand delivery from FDLE. Later that morning CAIRNS arrived at the FDLE Operations Center and informed law enforcement officers that he had an explosive device in his vehicle. CAIRNS was subsequently placed in the Mental Health Clinic of Jacksonville under the Baker Act provision and was released into the custody of FDLE and placed in the Duval County Jail under the charge: Bomb, false report about planting bomb or explosive.

- She remembers filling the original prescription for Hydrocodone 10/325mg count 120 for that patient the day CAIRNS placed a prescription bottle in his pocket.
- There were other instances where there have been pills (she is not sure of what type) in clear plastic Target bags (used for when a label is too small to be placed on the box/container) in the back of the pharmacy.
- She is not sure why the bags were in the back of the pharmacy in CAIRNS' box because there is no need for any medications to be back there.
- She noticed significant changes in CAIRNS' behavior over the past few months.
- CAIRNS was usually happy, open and talkative with her and other staff members at Target.
- Within the past few months CAIRNS became very angry, short and agitated and directing his agitation at her.

- Then CAIRNS' behavior would change and he would be very apologetic and offer to buy her lunch to make up for it.
- During one conversation with CAIRNS, he asked her if the camera angles had been changed, and she replied (jokingly) that she did not know and asked "why, do you have something to hide?"
- CAIRNS behavior then started to become very paranoid.
- CAIRNS stated to her "If I go down I'm taking everyone in this store down with me."
- CAIRNS then shut down and said very little about anything to anyone.

- He had noticed some behavioral changes with CAIRNS over the past few months, and an in-house investigation was started but he was not part of that investigation.

- CAIRNS had no disciplinary problems and had worked at that particular Target pharmacy for approximately 5 to 6 years.

INTERVIEW OF BILL CORFIELD (Witness)

Special Investigations Team Leader
Target
4750 Millenia Plaza Way

- His investigation kicked off with a pharmacy technician that came forward to say that she saw CAIRNS take a prescription bottle of medication that had been filled for a patient.
- The patient came in the next day to pick up the prescription and the prescription was not there and another had to be filled for the patient.
- When CAIRNS was confronted about the missing prescription and about him possibly taking the prescription CAIRNS responded "I don't know."
- Leading up to that incident the Target pharmacy staff indicated CAIRNS' behavior had changed over the past few months.
- Because of CAIRNS' alleged theft of the prescription and suspicious behavior, he reviewed video of the pharmacy a week prior to the theft as well as a week after the theft, but nothing was on the video regarding the theft or any other actions that led them to suspect theft.
- The staff did a cursory inventory of all CII'S and CIII'S and nothing was amiss.

CORFIELD had no additional information to add at this time.

STATEMENT OF ERIC H. CAIRNS, RPH (Subject)

2472 Den Street
St. Augustine, FL 32092
H (904) 584-2363

On 04/03/13 this Investigator reviewed a video interrogation/interview of CAIRNS by FDLE. CAIRNS essentially stated:

- He called SJCSO on 03/24/13 and deputies were sent to his house.
- He admitted to the officers that he had been stealing drugs from Target pharmacy for three years.
- He worked for approximately eleven and a half years as a pharmacist with Target.
- It started out with him taking expired medications that people brought back to the store.
- The expired medications are placed in an "expired bin" and then the drugs are either destroyed or sent back to the manufacturer.
- Then he progressed to stealing drugs from the shelves (Target inventory).
- He took a lot of Hydrocodone stock bottles 10/500mg count 500.
- He knew where the camera angles were in the pharmacy and in the store at Target and knew how to stay out of their paths.
- Testosterone and syringes were also something that he stole from the pharmacy.
- He began injecting himself with testosterone and even injected himself at least one time while on duty at Target pharmacy.
- He buried at least 500 Alprazolam 2mg tablets, 500 Alprazolam 1mg tablets, 1000 Hydrocodone 10/500mg tablets, a couple of vials of testosterone 30mg, an unknown quantity of Doxycyclene, an unknown quantity of Omeprazole, 11 tablets of Oxycontin 80mg as well as syringes.
- He and his wife also flushed an unknown number of medications down the toilet at their house.
- Testosterone cream and androgel (and pump) were also taken from Target pharmacy by him.
- Sometime in late 02/13 he had a large cardboard box that he filled with stock bottles of Hydrocodone, Alprazolam, testosterone/syringes and other drugs, and he placed another empty box on top of the box full of drugs and walked out of Target.
- He was able to take stock bottles of medication because Target wanted a monetary inventory of roughly $500,000, and because that particular Target was growing so fast they were holding over a $500,000 inventory which allowed him to take inventory to make the numbers come down.
- He started diverting Zopildem 10mg stock bottles and was taking about one tablet a night.
- The jump from non-controlled medications to controlled medications was made because of pain in his head, feet and knees.
- He has falsified call in prescriptions for controlled drugs, but only to benefit the patient or make it easier for the patient.
- Shortly before the time when he confessed he received a phone call from a Target and had a bad feeling about the call, and then he received an email from a "big wig" at Target.
- His partner was acting kind of weird, asking him questions and giving him contradicting statements.
- He began at that point to feel that Target might be onto his diversion.

- He denies taking Methadone even though there was a documented shortage in the pharmacy.
- He placed a 500 count stock bottle of Hydrocodone in the back of the pharmacy and informed SABRINA WALSH, RPT that he had placed the medication back there for her to do whatever she wanted to with them.
- The reason he called SJCSO is because he thought Target was on to him and that he was going to be terminated.

CAIRNS had no additional information to add at this time.

On 04/03/13 this Investigator along with FDLE AGT. DANDELAKE traveled to the Duval County Jail to speak with CAIRNS. CAIRNS essentially stated:

- The information contained in the Case Summary and Healthcare Practitioner Complaint Form seemed pretty accurate and "cut and dry."
- He indicated that he was not too worried at this point about his pharmacy license because he had bigger problems he was facing.

CAIRNS had no additional information to add at this time.

MOTION FOR DETERMINATION OF WAIVER AND FOR FINAL ORDER BY HEARING NOT INVOLVING DISPUTED ISSUES OF MATERIAL FACT

Petitioner, Department of Health, by and through counsel, moves the Board of Pharmacy to find that Respondent has waived his/her right to elect a method of disposition of the pending Administrative Complaint, to determine that no material facts are in dispute, to conduct a hearing not involving disputed issues of material fact, and to enter a Final Order. As grounds therefore, Petitioner states:

1. An Administrative Complaint was filed against Respondent on February 28, 2013. A copy of said Administrative Complaint is attached hereto as Petitioner's Exhibit A.

2. Copies of the Administrative Complaint, Explanation of Rights form, and Election of Rights forms were sent to Respondent, via certified US mail delivery, on March 6, 2013 (7196 9008 9111 1491 3912). A signed

green receipt card was returned. A copy of the certified mail receipt is attached as Petitioner's Exhibit B.

3. Thereafter, the Department requested personal service on Respondent, which was completed on July 11, 2013. The affidavit of personal service is attached as Petitioner's Exhibit C.

4. Respondent has not filed with either the Department of Health or the Board of Pharmacy, an Election of Rights form or other responsive pleading in this case within the twenty-one (21) day period to dispute the allegations contained in the Administrative Complaint. Copies of affidavits supporting the same are attached hereto as Petitioner's Exhibits D and E.

5. Rule 28-106.111(2), Florida Administrative Code, provides in pertinent part that:

> . . . persons seeking a hearing on an agency decision which does or may determine their substantial interests shall file a petition for hearing with the agency within 21 days of receipt of written notice of the decision.

6. Rule 28.106.111(4), Florida Administrative Code, provides in pertinent part that:

> . . . any person who received written notice of an agency decision and who fails to file a written request for a hearing within 21 days waives the right to request a hearing on such matters.

7. Respondent has been advised, by a copy of this motion sent to his/her address of record, that a copy of the investigative file in this case shall be furnished to the Board to establish a prima facie case regarding the violations as set forth in the Administrative Complaint.

8. The Department has determined that there are no material facts in dispute and has concluded that Respondent has waived his/her right to elect the method of resolution.

9. The Department requests that this Motion and a hearing be placed on the agenda for the next regularly scheduled meeting of the Board of Pharmacy.

WHEREFORE, Petitioner respectfully requests that the Board find that Respondent has waived his/her right to elect a method of resolution of this matter, find that there are no material facts in dispute, hold a hearing not involving material issues of disputed fact based on the information contained in the investigative file, find that Respondent violated Chapters 456 and 465, Florida Statutes, as alleged in the Administrative Complaint, impose discipline in accordance with the disciplinary guidelines, and enter a Final Order.

Re: **Case Name:** **Ihab S. Barsoum, R.Ph.**
Case Number: **2011-17660**

Dear Mr. Barsoum:

I am in receipt of your letter dated July 20, 2013. I contacted Mark O'Brien, Esq., and he indicated he is only representing you regarding your criminal appeal and is not representing you in this matter.

Although you are appealing your criminal conviction, the completion of relevant appellate remedies does not preclude the Department from prosecuting your pharmacy license and submitting your case to the Board of Pharmacy for discipline. In Rife v. Dep't of Prof'l Reg., 638 So. 2d 542, 543 (Fla. 2d DCA 1994), the court allowed discipline based on action against appellant's license in another state even though appellate proceedings were still pending.

You were served with an administrative complaint via personal service on June 11, 2013. You failed to dispute the allegations of fact contained within the administrative complaint and failed to submit a response within twenty-one days of service of the administrative complaint, so your case will be heard by the Board of Pharmacy as a Motion for Determination of Waiver and for Final Order by Hearing Not Involving Disputed Issues of Material Fact. You will receive notice of the meeting at a future time.

Sincerely yours,

Michael G. Lawrence, Jr.

MOTION TO ASSESS COSTS IN ACCORDANCE WITH SECTION 456.072(4)

COMES NOW the Department of Health, by and through undersigned counsel, and moves the Board of Pharmacy for the entry of a Final Order assessing costs against the Respondent for the investigation and prosecution of this case in accordance with Section 456.072(4), Florida Statutes. As grounds therefore, the Petitioner states the following:

1. At its next regularly scheduled meeting, the Board of Pharmacy will take up for consideration the above-styled disciplinary action and will enter a Final Order therein.

2. Section 456.072(4), Florida Statutes, states as follows:

> In addition to any other discipline imposed through final order, or citation, entered on or after July 1, 2001, pursuant to this section or

Such costs related to the investigation and prosecution include, but are not limited to, salaries and benefits of personnel, costs related to the time spent by the attorney and other personnel working on the case, and any other expenses incurred by the department for the case. The board, or the department when there is no board, shall determine the amount of costs to be assessed after its consideration of an affidavit of itemized costs and any written objections thereto. .

3. The investigation and prosecution of this case has resulted in costs in the total amount of $1,749.48, based on the following itemized statement of costs:

	***** Cost to Date *****

Sub Total:	23.65	$1,749.48
Expenses to Date:		$0.00
Prior Amount:		$0.00
Total Costs to Date:		$1,749.48

Therefore, the Petitioner seeks an assessment of costs against the Respondent in the amount of $1,090.88 as evidenced in the attached affidavit. (Exhibit A).

4. Should the Respondent file written objections to the assessment of costs, within ten (10) days of the date of this motion, specifying the grounds for the objections and the specific elements of the costs to which the objections are made, the Petitioner requests that the Board determine the amount of costs to be assessed based upon its consideration of the affidavit attached as Exhibit A and any timely-filed written objections.

5. Petitioner requests that the Board grant this motion and assess costs in the amount of $1,090.88 as supported by competent, substantial evidence. This assessment of costs is in addition to any other discipline imposed by the Board and is in accordance with Section 456.072(4), Florida Statutes.

WHEREFORE, the Department of Health requests that the Board of Pharmacy enter a Final Order assessing costs against the Respondent in the amount of $1,090.88.

AFFIDAVIT OF FEES AND COSTS EXPENDED

STATE OF FLORIDA
COUNTY OF LEON:

BEFORE ME, the undersigned authority, personally appeared **SHANE WALTERS** who was sworn and states as follows:

1) My name is Shane Walters.

2) I am over the age of 18, competent to testify, and make this affidavit upon my own personal knowledge and after review of the records at the Florida Department of Health (DOH).

3) I am the Operations and Management Consultant Manager (OMCM) for the Consumer Services and Compliance Management Unit for DOH. The Consumer Services Unit is where all complaints against Florida health care licensees (e.g., medical doctors, dentists, nurses, respiratory therapists) are officially filed. I have been in my current job position for more than one year. My business address is 4052 Bald Cypress Way, Bin C-75 Tallahassee, Florida 32399-3275.

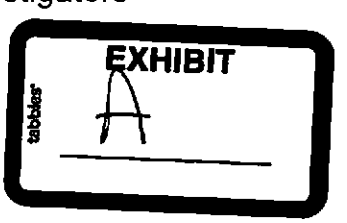
4) As OMCM of the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.

5) As of today, DOH's total costs for investigating and prosecuting DOH case number(s) **2011-17660** (Department of Health v. **IHAB S. BARSOUM**) are **ONE THOUSAND SEVEN HUNDRED FORTY-NINE DOLLARS AND FORTY-EIGHT CENTS ($1,749.48).**

6) The costs for DOH case number(s) **2011-17660** (Department of Health v. **IHAB S. BARSOUM**) are summarized in Exhibit **1** (Cost Summary Report), which is attached to this document.

7) The itemized costs and expenses for DOH case number(s) **2011-17660** (Department of Health v. **IHAB S. BARSOUM**) are detailed in Exhibit 2 (Itemized Cost Report and Itemized Expense Report and receipts), which is attached to this document.

8) The itemized costs as reflected in Exhibit 2 are determined by the following method: DOH employees who work on cases daily are to keep track of their time in six-minute increments (e.g., investigators



and lawyers). A designated DOH employee in the Consumer Services Unit, Legal Department, and in each area office, inputs the time worked and expenses spent into the Time Tracking System. Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. (See the Itemized Cost Report)

9) Shane Walters, first being duly sworn, states that she has read the foregoing Affidavit and its attachments and the statements contained therein are true and correct to the best of her knowledge and belief.

FURTHER AFFIANT SAYETH NOT.

4. Section 456.074(1), Florida Statutes (2012), provides that the department *shall* issue an emergency order suspending the license of any person licensed under chapter 465, Florida Statutes, who is convicted or

BARSOUM was notified of the investigation by letter dated 11-21-13 (Exhibit #2) at the address of record and was provided a copy of the Case Summary and original documents that initiated the complaint.

IHAB "STEVE" BARSOUM

PRELIMINARY ORDER OF FORFEITURE

THIS CAUSE comes before the Court upon the United States' Motion for a Preliminary Order of Forfeiture, pursuant to 21 U.S.C. § 853 and Federal Rule of Criminal Procedure 32.2(b)(2), which, at sentencing, shall become a final order of forfeiture as to defendant Ihab Steve Barsoum's right, title, and interest in his Pharmacist License Number PS30945.

Following the Jury's Verdict finding the defendant guilty of the Oxycodone violations charged in Counts One through Six of the Superseding Indictment, the Court found, by a preponderance of the evidence, that the defendant's pharmacist license shall be forfeited to the United States. Accordingly, it is hereby

It is FURTHER ORDERED that, pursuant to the provisions of 21 U.S.C. § 853(a) and Rule 32.2(b)(2), Federal Rules of Criminal Procedure, all right, title

and interest of defendant Ihab Steve Barsoum in his pharmacist license number PS30945 are hereby FORFEITED to the United States of America for disposition according to law.

The Court retains jurisdiction to entertain any third party claims that may be asserted in these proceedings, and to enter any further order necessary for the forfeiture and disposition of such property.

PETITIONER, the Florida Department of Health, by and through the undersigned counsel, hereby moves the Board of Pharmacy for entry of a Final Order in the above-styled cause on a date and time that has been determined and noticed by the Board. As grounds therefore Petitioner states:

1. An Administrative Complaint was filed against Respondent on May 28, 2013. A copy of said Administrative Complaint is attached hereto as Petitioner's Exhibit A.

2. Copies of the Administrative Complaint, Explanation of Rights form, and Election of Rights form were sent to Respondent via certified US mail on: April 13, 2013 (7196 9111 5773 2310). Service on Respondent via certified mail

8) The itemized costs as reflected in Exhibit 2 are determined by the following method: DOH employees who work on cases daily are to keep track of their time in six-minute increments (e.g., investigators and lawyers). A designated DOH employee in the Consumer Services Unit, Legal Department, and in each area office, inputs the time worked and expenses spent into the Time Tracking System. Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. (See the Itemized Cost Report)

MOTION TO ASSESS COSTS IN ACCORDANCE WITH SECTION 456.072(4)

COMES NOW the Department of Health, by and through undersigned counsel, and moves the Board of Pharmacy for the entry of a Final Order assessing costs against the Respondent for the investigation and prosecution of this case in accordance with Section 456.072(4), Florida Statutes. 4. Should the Respondent file written objections to the assessment of costs, within ten (10) days of the date of this motion, specifying the grounds for the objections and the specific elements of the costs to which the objections are made, the Petitioner requests that the Board determine the amount of costs to be assessed based upon its consideration of the affidavit attached as Exhibit A and any timely-filed written objections.

AFFIDAVIT OF FEES AND COSTS EXPENDED

STATE OF FLORIDA
COUNTY OF LEON:

BEFORE ME, the undersigned authority, personally appeared **SHANE WALTERS** who was sworn and states as follows:

1) My name is Shane Walters.

2) I am over the age of 18, competent to testify, and make this affidavit upon my own personal knowledge and after review of the records at the Florida Department of Health (DOH).

3) I am the Operations and Management Consultant Manager (OMCM) for the Consumer Services and Compliance Management Unit for DOH. The Consumer Services Unit is where all complaints against Florida health care licensees (e.g., medical doctors, dentists, nurses, respiratory therapists) are officially filed. I have been in my current job position for more than one year. My business address is 4052 Bald Cypress Way, Bin C-75 Tallahassee, Florida 32399-3275.

4) As OMCM of the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.

5) As of today, DOH's total costs for investigating and prosecuting DOH case number(s) **2012-16942** (Department of Health v. **GEORGE ADRIAZOLA, RPT**) are **TWO THOUSAND THREE HUNDRED SIXTY-FOUR DOLLARS AND SEVEN CENTS ($2,364.07).**

6) The costs for DOH case numbers **2012-16942** (Department of Health v. **GEORGE ADRIAZOLA, RPT**) are summarized in Exhibit 1 (Cost Summary Report), which is attached to this document.

7) The itemized costs and expenses for DOH case numbers **2012-16942** (Department of Health v. **GEORGE ADRIAZOLA, RPT**) are detailed in Exhibit 2 (Itemized Cost Report and Itemized Expense Report and receipts), which is attached to this document.

8) The itemized costs as reflected in Exhibit 2 are determined by the following method: DOH employees who work on cases daily are to

keep track of their time in six-minute increments (e.g., investigators and lawyers). A designated DOH employee in the Consumer Services Unit, Legal Department, and in each area office, inputs the time worked and expenses spent into the Time Tracking System. Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. (See the Itemized Cost Report)

9) Shane Walters, first being duly sworn, states that she has read the foregoing Affidavit and its attachments and the statements contained therein are true and correct to the best of her knowledge and belief.

FURTHER AFFIANT SAYETH NOT.

> . . . any person who receives written notice of an agency decision and who fails to file a written request for a hearing within 21 days waives the right to request a hearing on such matters.

7. Respondent has been advised, by a copy of this Motion sent to both his address of record that a copy of the investigative file in this case shall be furnished to the Board of Pharmacy to establish a prima facie case regarding the violations as set forth in the Administrative Complaint.

8. The Petitioner has determined that there are no material facts in dispute and has concluded that Respondent has waived his right to elect the method of resolution.

9. The Petitioner requests that this Motion and a hearing be placed on the agenda for the next meeting of the Board of Pharmacy to be held on October 8-9, 2013, in Panama City, Florida.

2012-13608

RYAN DANIEL RODRIGUEZ, R.P.T.,

_____/

MOTION TO ASSESS COSTS
IN ACCORDANCE WITH SECTION 456.072(4)

The Department of Health, by and through counsel, moves the Board of Pharmacy for entry of a Final Order assessing costs against Respondent for the investigation and prosecution of these cases in accordance with Section 456.072(4), Florida Statutes (2012). As grounds therefore, the Petitioner states the following:

1. At its next regularly scheduled meeting, the Board of Pharmacy will take up for consideration the above-styled disciplinary actions and will enter a Final Order.

2. Section 456.072(4), Florida Statutes (2012), states, in pertinent part, as follows:

> In addition to any other discipline imposed through final order, or citation, entered on or after July 1, 2001, under this section or discipline imposed through final order, or citation, entered on or after July 1, 2001, for a violation of any practice act, the board, or the department when there is no board, shall assess costs related to the investigation and prosecution of the case. The costs related to the investigation and prosecution include, but are not limited to, salaries and benefits of personnel, costs related to the time spent by the attorney and other personnel working on the case, and any other expenses incurred by the department for the case. The board, or the department when there is no board, shall determine the amount of costs to be assessed after its consideration of an affidavit of itemized costs and any written objections thereto....

3. As evidenced in the attached affidavits (Exhibits A and B), the investigation and prosecution of these cases has resulted in costs in the total amount of $2,661.05, based on the following itemized statement of costs:

a. Total costs for Complaints $248.63
b. Total costs for Investigations $1,474.33
c. Total costs for Legal $933.15
d. Total costs for Compliance $4.94
e. Total costs for expenses $0.00

4. The attached affidavit reflects the Department's costs for attorney time in these cases as $933.15 (Exhibit C). The cost of obtaining an affidavit from an outside attorney will be greater than $933.15. Therefore, the Department is not seeking costs for attorney time in these cases.

5. Should Respondent file written objections to the assessment of costs, within ten (10) days of the date of this motion, specifying the grounds for the objections and the specific elements of the costs to which objections are made, Petitioner requests that the Board determine the amount of costs to be assessed based upon its consideration of the affidavits attached as Exhibits A and B, and any timely-filed written objections.

6. Petitioner requests that the Board grant this motion and assess costs in the amount of $1,727.90 as supported by competent, substantial evidence. This assessment of costs is in addition to any other discipline imposed by the Board and is in accordance with Section 456.072(4), Florida Statutes (2012).

WHEREFORE, the Department of Health requests that the Board of Pharmacy enter a Final Order assessing costs against Respondent in the amount of $1,727.90.

DATED this 29th day of August, 2013.

AFFIDAVIT OF FEES AND COSTS EXPENDED

STATE OF FLORIDA
COUNTY OF LEON:

BEFORE ME, the undersigned authority, personally appeared **SHANE WALTERS** who was sworn and states as follows:

1) My name is Shane Walters.

2) I am over the age of 18, competent to testify, and make this affidavit upon my own personal knowledge and after review of the records at the Florida Department of Health (DOH).

3) I am the Operations and Management Consultant Manager (OMCM) for the Consumer Services and Compliance Management Unit for DOH. The Consumer Services Unit is where all complaints against Florida health care licensees (e.g., medical doctors, dentists, nurses, respiratory therapists) are officially filed. I have been in my current job position for more than one year. My business address is 4052 Bald Cypress Way, Bin C-75 Tallahassee, Florida 32399-3275.

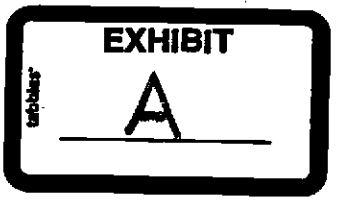
4) As OMCM of the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.

5) As of today, DOH's total costs for investigating and prosecuting DOH case number **2012-13596** (Department of Health v. **Ryan D. Rodriguez, R.P.T.**) are **ONE THOUSAND FIVE HUNDRED NINETY-THREE DOLLARS AND SIXTEEN CENTS ($1,593.16).**

6) The costs for DOH case number **2012-13596** (Department of Health v. **Ryan D. Rodriguez, R.P.T.**) are summarized in Exhibit 1 (Cost Summary Report), which is attached to this document.

7) The itemized costs and expenses for DOH case number **2012-13596** (Department of Health v. **Ryan D. Rodriguez, R.P.T.**) are detailed in Exhibit 2 (Itemized Cost Report and Itemized Expense Report and receipts), which is attached to this document.

8) The itemized costs as reflected in Exhibit 2 are determined by the following method: DOH employees who work on cases daily are to keep track of their time in six-minute increments (e.g., investigators



and lawyers). A designated DOH employee in the Consumer Services Unit, Legal Department, and in each area office, inputs the time worked and expenses spent into the Time Tracking System. Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. (See the Itemized Cost Report)

DEPARTMENT OF HEALTH,

Petitioner,

v. **CASE NOS. 2012-13596**
2012-13608

RYAN DANIEL RODRIGUEZ, R.P.T.,

Respondent.
_____/

MOTION TO ASSESS COSTS
IN ACCORDANCE WITH SECTION 456.072(4)

The Department of Health, by and through counsel, moves the Board of Pharmacy for entry of a Final Order assessing costs against Respondent for the investigation and prosecution of these cases in accordance with Section 456.072(4), Florida Statutes (2012). As grounds therefore, the Petitioner states the following:

1. At its next regularly scheduled meeting, the Board of Pharmacy will take up for consideration the above-styled disciplinary actions and will enter a Final Order.

2. Section 456.072(4), Florida Statutes (2012), states, in pertinent part, as follows:

> In addition to any other discipline imposed through final order, or citation, entered on or after July 1, 2001, under this section or discipline imposed through final order, or citation, entered on or after July 1, 2001, for a violation of any practice act, the board, or the department when there is no board, shall assess costs related to the investigation and prosecution of the case. The costs related to the investigation and prosecution include, but are not limited to, salaries and benefits of personnel, costs related to the time spent by the attorney and other personnel working on the case, and any other expenses incurred by the department for the case. The board, or the department when there is no board, shall determine the amount of costs to be assessed after its consideration of an affidavit of itemized costs and any written objections thereto....

3. As evidenced in the attached affidavits (Exhibits A and B), the investigation and prosecution of these cases has resulted in costs in the total amount of $2,661.05, based on the following itemized statement of costs:

a. Total costs for Complaints $248.63
b. Total costs for Investigations $1,474.33
c. Total costs for Legal $933.15
d. Total costs for Compliance $4.94
e. Total costs for expenses $0.00

4. The attached affidavit reflects the Department's costs for attorney time in these cases as $933.15 (Exhibit C). The cost of obtaining an affidavit from an outside attorney will be greater than $933.15. Therefore, the Department is not seeking costs for attorney time in these cases.

5. Should Respondent file written objections to the assessment of costs, within ten (10) days of the date of this motion, specifying the grounds for the objections and the specific elements of the costs to which objections are made, Petitioner requests that the Board determine the amount of costs to be assessed based upon its consideration of the affidavits attached as Exhibits A and B, and any timely-filed written objections.

6. Petitioner requests that the Board grant this motion and assess costs in the amount of $1,727.90 as supported by competent, substantial evidence. This assessment of costs is in addition to any other discipline imposed by the Board and is in accordance with Section 456.072(4), Florida Statutes (2012).

WHEREFORE, the Department of Health requests that the Board of Pharmacy enter a Final Order assessing costs against Respondent in the amount of $1,727.90.

DATED this 29th day of August, 2013.

AFFIDAVIT OF FEES AND COSTS EXPENDED

STATE OF FLORIDA
COUNTY OF LEON:

BEFORE ME, the undersigned authority, personally appeared **SHANE WALTERS** who was sworn and states as follows:

1) My name is Shane Walters.

2) I am over the age of 18, competent to testify, and make this affidavit upon my own personal knowledge and after review of the records at the Florida Department of Health (DOH).

3) I am the Operations and Management Consultant Manager (OMCM) for the Consumer Services and Compliance Management Unit for DOH. The Consumer Services Unit is where all complaints against Florida health care licensees (e.g., medical doctors, dentists, nurses, respiratory therapists) are officially filed. I have been in my current job position for more than one year. My business address is 4052 Bald Cypress Way, Bin C-75 Tallahassee, Florida 32399-3275.

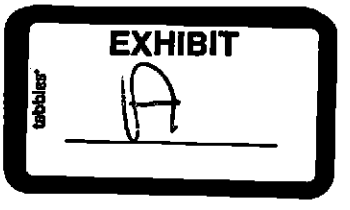
4) As OMCM of the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.

5) As of today, DOH's total costs for investigating and prosecuting DOH case number **2012-13608** (Department of Health v. **Ryan D. Rodriguez, R.P.T.**) are **ONE THOUSAND NINETY-NINE DOLLARS AND EIGHTY CENTS ($1,099.80).**

6) The costs for DOH case number **2012-13608** (Department of Health v. **Ryan D. Rodriguez, R.P.T.**) are summarized in Exhibit 1 (Cost Summary Report), which is attached to this document.

7) The itemized costs and expenses for DOH case number **2012-13608** (Department of Health v. **Ryan D. Rodriguez, R.P.T.**) are detailed in Exhibit 2 (Itemized Cost Report and Itemized Expense Report and receipts), which is attached to this document.

8) The itemized costs as reflected in Exhibit 2 are determined by the following method: DOH employees who work on cases daily are to keep track of their time in six-minute increments (e.g., investigators



and lawyers). A designated DOH employee in the Consumer Services Unit, Legal Department, and in each area office, inputs the time worked and expenses spent into the Time Tracking System. Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. (See the Itemized Cost Report)

9) Shane Walters, first being duly sworn, states that she has read the foregoing Affidavit and its attachments and the statements contained therein are true and correct to the best of her knowledge and belief.

FURTHER AFFIANT SAYETH NOT.

3. On or about October 24, 2012, in the Circuit Court of the Fourth Judicial Circuit in and for Duval County, Florida, in case number 16-2012-CF-008994, Mr. Rodriguez entered a plea of guilty to unlawful possession of a controlled substance, a third degree felony, in violation of Section 893.13(6)(a), Florida Statutes (2012).

4. Section 456.074(1), Florida Statutes (2012), provides that the Department *shall* issue an emergency order suspending the license of any person licensed under Chapter 465, Florida Statutes, who enters a plea of guilty to a felony under Chapter 893, Florida Statutes, regardless of adjudication.

CONCLUSIONS OF LAW

Based on the foregoing Findings of Fact, the State Surgeon General concludes as follows:

1. The Department of Health has jurisdiction pursuant to Sections 20.43, and 456.074(1), Florida Statutes (2012).

2. The Department must suspend Mr. Rodriguez's license to practice as a registered pharmacy technician in accordance with Section 456.074(1), Florida Statutes (2012).

3. This summary procedure is fair under the circumstances to adequately protect the public.

WHEREFORE, in accordance with Section 456.074(1), Florida Statues, it is ORDERED THAT:

1. The license of Ryan D. Rodriguez, RPT, license number RPT 5867, is immediately suspended.

2. A proceeding seeking formal suspension or discipline of the license of Mr. Rodriguez to practice as a registered pharmacy technician will be promptly instituted and acted upon in compliance with Section 120.569, Florida Statutes (2012).

Synopsis: This investigation is predicated upon an internal complaint from the DEPARTMENT OF HEALTH INVESTIGATIVE SERVICES UNIT - JACKSONVILLE in regard to RYAN RODRIGUEZ, a Registered Pharmacy Technician at Walgreens alleging that on 9/10/12 RODRIGUEZ was arrested by the Jacksonville Sheriff's Office on one count of Trafficking in Opium or Derivative and a second count of Theft of Any Amount of Controlled Substance. Through an investigation by the Jacksonville Sheriff's Office it also became known that RODRIGUEZ was involved in diversion of narcotics from four different Walgreen's stores. RODRIGUEZ admitted that he had taken controlled substances for over a year from Walgreen's stores and was ultimately terminated, (Exhibit 1).

RODRIGUEZ was notified of the investigation by a letter hand-served by this Investigator on 9/17/12 to his address of record. RODRIGUEZ was provided a copy of the Case Summary and attachments, (Exhibit 2).

A search of the DOH licensure database reveals RODRIGUEZ is currently licensed as a Registered Pharmacy Technician. RODRIGUEZ'S license is currently Clear/Active. RODRIGUEZ first obtained his license on 11/04/09.

A patient advisement letter was not necessary as this case does not involve patient care.

RODRIGUEZ is not known to be represented by an attorney with this matter.

RODRIGUEZ in a telephone conversation with this Investigator on 9/26/12 indicated that he wishes to keep his Registered Pharmacy Technician license, and will be responding to the Board by way of a written response in the near future. Any information and/or interviews conducted subsequent to the completion of this final report will be forwarded in the form of a supplemental report.

Summary of Exhibits/Records/Documents

Exhibit 1 is a copy of the Case Summary. In addition to the Case Summary, additional records were provided. Through review of these records this Investigator noted:

- A copy of a Healthcare Practitioner Complaint Form
- A copy of a Jacksonville Sheriff's Office Arrest and Booking Report, (Incident Number 667762) which indicates that the Jacksonville Sheriff's Office was contacted by RICHARD MCGOWAN, a Walgreen's Loss Prevention Officer who advised that RODRIGUEZ has been stealing Hydrocodone and Xanax from various Walgreen's stores that he had been working in Duval county. Investigation revealed that RODRIGUEZ had been stealing controlled substances from the following Walgreen's pharmacies located at: 6006 Beach Boulevard, 14450 Beach Boulevard, 10899 Baymeadows Road, and 406 Atlantic Boulevard. On 7/08/12, MCGOWAN interviewed RODRIGUEZ at the Walgreen's located at 6006 Beach Boulevard, at which point RODRIGUEZ admitted that he had been taking both controlled substances from the listed pharmacies for the past year. RODRIGUEZ also admitted this information to the Jacksonville Sheriff's Office. RODRIGUEZ further indicated that he was addicted to the Hydrocodone, which was why he was taking the medications. Walgreens suffered a total loss of 2,500 Hydrocodone tablets, and 800 Xanax tablets which totaled over $1900. The amount of Hydrocodone taken well exceeded the trafficking amount of four grams. RODRIGUEZ completed a written statement.

Exhibit 3 is a copy of Subpoena A 0074296 issued to Walgreens for a copy of evidence of alleged medication diversion.

Exhibit 4 is a copy of Administrative Paperwork from Walgreens received via UPS on 9/26/12. A copy of a completed Walgreen's Certification of Records form is included. Through review of the Administrative Paperwork this Investigator noted:

- A copy of RICHARD MCGOWAN'S, (Walgreen's Loss Prevention Officer) Case Inquiry Report, (Case Number 1241763) which indicates that at a Walgreens store, located at 6006 Beach Boulevard in Jacksonville, Fl, RODRIGUEZ admitted to stealing 1,310 Hydrocodone 10-325 tablets, 1,310 Hydrocodone 10-500 tablets, and 400 Alprazolam 2mg tablets, which is valued at $1,995.52 for over "the past 8 months". The investigation was predicated on noticing suspicious negative adjustments at several stores while reviewing the "LPxRx" reports. The suspects were narrowed down to RODRIGUEZ, who worked as a floater technician at the stores which were experiencing the shortages. RODRIGUEZ was interviewed and provided a full written admission for the theft of drugs. RODRIGUEZ was arrested and is pending prosecution. During the investigation, MCGOWAN noticed suspicious negative adjustments for Hydrocodone 10-325, Hydrocodone 10-500, and Alprazolam 2mg during the month of 4/12. MCGOWAN noticed these suspicious negative adjustments for stores # 4281 (14405 Beach Boulevard Jacksonville, Fl), #4310 (406 Atlantic Boulevard Neptune Beach, Fl), # 4327 (6006 Beach Boulevard Jacksonville, Fl). A further 52-week history on these drugs provided further confirmation of the suspicious activity. RODRIGUEZ was identified as a floater technician working at these stores during the time of the suspicious negative adjustments. On 9/08/12, MCGOWAN was alerted by store #4310 (406 Atlantic Boulevard Neptune Beach, Fl) that Alprazolam 2mg were missing during a narcotic count. RODRIGUEZ had been working as a floater at this store at the time of the suspicious negative adjustment. RODRIGUEZ was interviewed at the office in store # 4327, (6006 Beach Boulevard Jacksonville, Fl) and stated that he stole the drugs during the delete process. RODRIGUEZ further stated that he took Hydrocodone/Alprazolam prescriptions from the bins, put the stolen pills into his pocket and discarded the vials into the "DPI" box.

RODRIGUEZ maintained that he stole the drugs due to a back injury that he had suffered in high school, and agreed to provide Walgreens full restitution in the amount of $1,995.52.

- A copy of RODRIGUEZ'S voluntary written statement dated 9/10/12 in which he indicates that he had been addicted "off and on" to Hydrocodone for about a year. He did not have any medical coverage to go to a doctor, so he "decided to take some from the certain pharmacies" that he was working at. At times RODRIGUEZ would take a prescription of 40-60 tablets a day, and at other times he took more. RODRIGUEZ admits to taking narcotics from the following stores: 05788, (10899 Baymeadows Road Jacksonville, Fl), #4281, (14405 Beach Boulevard Jacksonville, Fl) # 4310, (406 Atlantic Boulevard Neptune Beach, Fl), and #4327, (6006 Beach Boulevard Jacksonville, Fl). RODRIGUEZ further admitted to taking the pills from the pharmacies by "doing the deletes", and putting the empty bottles into the "DPI" box.
- A copy of RODRIGUEZ'S Time Card Entries form which cover the time period of 9/01/11 through 6/28/12. This Investigator noted RODRIGUEZ was working in Walgreens stores # 4281 (14405 Beach Boulevard Jacksonville, Fl), #4310 (406 Atlantic Boulevard Neptune Beach, Fl), # 4327 (6006 Beach Boulevard Jacksonville, Fl) during the 4/12 time period. In addition this Investigator noted that on 4/09/12 RODRIGUEZ worked at store #4310 (406 Atlantic Boulevard Neptune Beach, Fl) location.
- A copy of "Pharmacy 52 Week WIC Activity" Reports for the following Walgreens stores: # 4281 (14405 Beach Boulevard Jacksonville, Fl), #4310 (406 Atlantic Boulevard Neptune Beach, Fl), # 4327 (6006 Beach Boulevard Jacksonville, Fl) and #5788 (10899 Baymeadows Road Jacksonville, Fl). Through review of the reports this Investigator noted negative adjustments of stores # 4281 (14405 Beach Boulevard Jacksonville, Fl), #4310 (406 Atlantic Boulevard Neptune Beach, Fl), # 4327 (6006 Beach Boulevard Jacksonville, Fl) involving Hydrocodone 10-325 tablets, Hydrocodone 10-500 tablets during the 4/12 time period.

Exhibit 5 is a copy of Administrative Paperwork from Walgreens received via email on 9/26/12. This Investigator placed the information onto a CD format. Through review of the Administrative Paperwork this Investigator noted corresponding Narcotic Dispensing Reports, (additional information) for the time period of 9/10/11 through 9/10/12 for each of the four Walgreen's store locations: # 4281 (14405 Beach Boulevard Jacksonville, Fl), #4310 (406 Atlantic Boulevard Neptune Beach, Fl), # 4327 (6006 Beach Boulevard Jacksonville, Fl) and #5788 (10899 Baymeadows Road Jacksonville, Fl).

INVESTIGATOR'S NOTE:
Through speaking with the Walgreen's Legal Department on 9/25/12 this Investigator was advised that RODRIGUEZ has been terminated, however there is no actual termination form in which can be produced.

Exhibit 6 is a copy of RODRIGUEZ'S Sworn Statement provided to the Jacksonville Sheriff's Office received from the Assistant State Attorney's Office via facsimile on 9/28/12. Through review of RODRIGUEZ'S Sworn Statement this Investigator noted that RODRIGUEZ indicated that he has been addicted to Hydrocodone for about a year. RODRIGUEZ did not have any medical coverage to see a doctor, so he decided to take some from the "certain pharmacies" that he was working at. RODRIGUEZ "started taking them about a year ago, but was able to get off of them for a short period of time and stop". RODRIGUEZ tried to stop consuming the pills, but has been unable to. RODRIGUEZ wants to get off, but he can not because every time he tries to get off the pills, he suffers from withdrawals.

Exhibit 7 is a copy of an IPN/DOH Investigator Communication Form this Investigator faxed to PRN for current PRN activity of RODRIGUEZ on 9/17/12.

Exhibit 8 is a copy of an IPN/DOH Investigator Communication Form response received via facsimile from PRN on 9/18/12. Through review of this response form this Investigator noted that RODRIGUEZ was not reported to, nor did RODRIGUEZ contact PRN in reference to this case.

COUNTY OF LEON:

BEFORE ME, the undersigned authority, personally appeared **SHANE WALTERS** who was sworn and states as follows:

1) My name is Shane Walters.

2) I am over the age of 18, competent to testify, and make this affidavit upon my own personal knowledge and after review of the records at the Florida Department of Health (DOH).

3) I am the Operations and Management Consultant Manager (OMCM) for the Consumer Services and Compliance Management Unit for DOH. The Consumer Services Unit is where all complaints against Florida health care licensees (e.g., medical doctors, dentists, nurses, respiratory therapists) are officially filed. I have been in my current job position for more than one year. My business address is 4052 Bald Cypress Way, Bin C-75 Tallahassee, Florida 32399-3275.

4) As OMCM of the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.

5) As of today, DOH's total costs for investigating and prosecuting DOH case number(s) **2010-19143** (Department of Health v. **JAMES M. MAISTER, R.PH.**) are **FOUR THOUSAND THREE HUNDRED NINETY-THREE DOLLARS AND NINETY-TWO CENTS ($4, 393.92).**

6) The costs for DOH case numbers **2010-19143** (Department of Health v. **JAMES M. MAISTER, R.PH.**) are summarized in Exhibit 1 (Cost Summary Report), which is attached to this document.

keep track of their time in six-minute increments (e.g., investigators and lawyers). A designated DOH employee in the Consumer Services Unit, Legal Department, and in each area office, inputs the time worked and expenses spent into the Time Tracking System. Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. (See the Itemized Cost Report)

9) Shane Walters, first being duly sworn, states that she has read the foregoing Affidavit and its attachments and the statements contained therein are true and correct to the best of her knowledge and belief.

Re: DOH vs. JAMES M. MAISTER, R.PH.
DOH Case Number: 2010-19143

Dear Mr. MAISTER:

I am in receipt of your election of rights requesting a hearing not involving disputed issues of material fact executed by you on **May 3, 2013,** concerning the above referenced case. This means that the facts alleged in the Administrative Complaint are uncontested. This is an important distinction because, by law, the Board cannot resolve disputes of material fact in this case or any disciplinary case. Since you are requesting a hearing not involving disputed issues of material fact, you are not admitting the facts alleged in the Administrative Complaint, however, you are agreeing not to contest these facts and to limit presentation to legal argument, if any, and to matters in mitigation or extenuation.

Our office is now preparing this case to be presented at the next meeting of the Florida Board of Pharmacy, scheduled for **October 9, 2013, at the Wyndham bay Point Resort, 4114 Jan Cooley Drive, Panama City Beach, Florida 32408**. Please be advised your case will be set at the convenience of the Department and/or the Florida Board of Pharmacy and you will be notified of the date and time approximately two weeks prior to the meeting.

Thank for your attention and cooperation in this matter. Should you have any questions, please feel free to contact this office.

Sincerely,

Casey L. Cowan

AFFIDAVIT OF FEES AND COSTS EXPENDED

STATE OF FLORIDA
COUNTY OF LEON:

BEFORE ME, the undersigned authority, personally appeared **SHANE WALTERS** who was sworn and states as follows:

1) My name is Shane Walters.

2) I am over the age of 18, competent to testify, and make this affidavit upon my own personal knowledge and after review of the records at the Florida Department of Health (DOH).

3) I am the Operations and Management Consultant Manager (OMCM) for the Consumer Services and Compliance Management Unit for DOH. The Consumer Services Unit is where all complaints against Florida health care licensees (e.g., medical doctors, dentists, nurses, respiratory therapists) are officially filed. I have been in my current job position for more than one year. My business address is 4052 Bald Cypress Way, Bin C-75 Tallahassee, Florida 32399-3275.

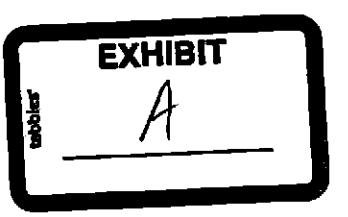
4) As OMCM of the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.

5) As of today, DOH's total costs for investigating and prosecuting DOH case number(s) **2012-14458** (Department of Health v. **DINO JOSE ANTONIONI, R. Ph.**) are **TWO THOUSAND TWO HUNDRED FORTY-SEVEN DOLLARS AND FIFTY-SIX CENTS ($2, 247.56).**

6) The costs for DOH case numbers **2012-14458** (Department of Health v. **DINO JOSE ANTONIONI, R. Ph.**) are summarized in Exhibit 1 (Cost Summary Report), which is attached to this document.

7) The itemized costs and expenses for DOH case numbers **2012-14458** (Department of Health v. **DINO JOSE ANTONIONI, R. Ph.**) are detailed in Exhibit 2 (Itemized Cost Report and Itemized Expense Report and receipts), which is attached to this document.

8) The itemized costs as reflected in Exhibit 2 are determined by the following method: DOH employees who work on cases daily are to



keep track of their time in six-minute increments (e.g., investigators and lawyers). A designated DOH employee in the Consumer Services Unit, Legal Department, and in each area office, inputs the time worked and expenses spent into the Time Tracking System. Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. (See the Itemized Cost Report)

9) Shane Walters, first being duly sworn, states that she has read the foregoing Affidavit and its attachments and the statements contained therein are true and correct to the best of her knowledge and belief.

FURTHER AFFIANT SAYETH NOT.

Dear Mr. Antonioni:

I am in receipt of your election of rights requesting a hearing not involving disputed issues of material fact, executed by you on May 14, 2013, concerning the above referenced case. This means that the facts alleged in the Administrative Complaint are uncontested. This is an important distinction because, by law, the Board cannot resolve disputes of material fact in this case or any disciplinary case. Since you are requesting a hearing not involving disputed issues of material fact, you are not admitting the facts alleged in the Administrative Complaint, however, you are agreeing not to contest these facts and to limit presentation to legal argument, if any, and to matters in mitigation or extenuation.

Our office is now preparing this case to be presented at the next meeting of the Florida Board of Pharmacy, scheduled for August 14, 2013, at the Rosen Plaza Hotel, 9700 International Drive, Orlando, Florida 32819. Please be advised your case will be set at the convenience of the Department and/or the Florida Board of Pharmacy and you will be notified of the date and time approximately two weeks prior to the meeting.

Thank for your attention and cooperation in this matter. Should you have any questions, please feel free to contact this office.

In Re: Emergency Suspension of the License of
Dino Jose Antonioni, R.Ph.
License No.: PS 38504
Case No.: 2012-14458

ORDER OF EMERGENCY SUSPENSION OF LICENSE

John H. Armstrong, MD, FACS, State Surgeon General and Secretary of Health, ORDERS the emergency suspension of the license of Dino Jose Antonioni, R.Ph., to practice as a pharmacist in the State of Florida. Mr. Antonioni holds license number PS 38504. His address of record is 15115 Southwest 54th Street, Miramar, Florida 33027. The following Findings of Fact and Conclusions of Law support the emergency suspension of Mr. Antonioni's license to practice as a pharmacist.

FINDINGS OF FACT

1. The Department of Health ("Department") is the state agency charged with regulating the practice of pharmacy pursuant to Chapters 20, 456, and 465, Florida Statutes (2012). Section 456.074(1), Florida Statutes (2012), authorizes the Department to summarily suspend Mr. Antonioni's license to practice as a pharmacist.

2. At all times material to this Order, Mr. Antonioni was licensed to practice as a pharmacist in the State of Florida pursuant to Chapter 465, Florida Statutes (2012).

3. On or about August 31, 2010, in the United States District Court, Northern District of California, an indictment was filed alleging that Mr. Antonioni conspired to distribute more than forty-eight million dollars worth of controlled substances outside the scope of professional practice between in or about January 2006, and March 2008. Mr. Antonioni was subsequently arrested in or about September 2010.

4. On or about December 7, 2010, in the United States District Court, Northern District of California, a superseding indictment was filed charging Mr. Antonioni with one count of conspiracy to distribute Schedule III and IV controlled substances in violation of 21 U.S.C. 846; one count of attempted possession with intent to distribute and distribution of Schedule III and IV controlled substances in violation 21 U.S.C. ss. 846, 841(a)(1), (b)(1)(D) & (b)(2); one count of conspiracy to launder money in violation of 18 U.S.C. 1956(h) & (a)(2)(A); and one count of international money laundering in violation of 18 U.S.C. 1956(a)(2)(A).

5. On or about March 27, 2013, in the United States District Court, Northern District of California, in case number CR-10-00642-011, Mr. Antonioni entered a plea of guilty to one count of conspiracy with intent to distribute Schedule III or IV controlled substances, a felony, in violation of 21 U.S.C. 846.

6. The Department did not learn of the above referenced plea until on or about April 5, 2013.

7. Section 456.074(1), Florida Statutes (2012), provides that the Department *shall* issue an emergency order suspending the license of any person licensed under Chapter 465, Florida Statutes, who pleads guilty to a felony under 21 U.S.C. ss. 801-970, regardless of adjudication.

CONCLUSIONS OF LAW

Based on the foregoing Findings of Fact, the State Surgeon General and Secretary of Health concludes as follows:

1. The Department has jurisdiction pursuant to Sections 20.43 and 456.074(1), Florida Statutes (2012), and Chapter 465, Florida Statutes (2012).

2. The Department is mandated to summarily suspend Mr. Antonioni's license to practice as a pharmacist in accordance with Section 456.074(1), Florida Statutes (2012).

DEPARTMENT OF HEALTH

In Re: Emergency Suspension of the License of
Dino Jose Antonioni, R.Ph.
License No.: PS 38504
Case No.: 2012-14458

ORDER OF EMERGENCY SUSPENSION OF LICENSE

John H. Armstrong, MD, FACS, State Surgeon General and Secretary of Health, ORDERS the emergency suspension of the license of Dino Jose Antonioni, R.Ph., to practice as a pharmacist in the State of Florida. Mr. Antonioni holds license number PS 38504. His address of record is 15115 Southwest 54th Street, Miramar, Florida 33027. The following Findings of Fact and Conclusions of Law support the emergency suspension of Mr. Antonioni's license to practice as a pharmacist.

FINDINGS OF FACT

1. The Department of Health ("Department") is the state agency charged with regulating the practice of pharmacy pursuant to Chapters 20, 456, and 465, Florida Statutes (2012). Section 456.074(1), Florida Statutes (2012), authorizes the Department to summarily suspend Mr. Antonioni's license to practice as a pharmacist.

2. At all times material to this Order, Mr. Antonioni was licensed to practice as a pharmacist in the State of Florida pursuant to Chapter 465, Florida Statutes (2012).

3. On or about August 31, 2010, in the United States District Court, Northern District of California, an indictment was filed alleging that Mr. Antonioni conspired to distribute more than forty-eight million dollars worth of controlled substances outside the scope of professional practice between in or about January 2006, and March 2008. Mr. Antonioni was subsequently arrested in or about September 2010.

4. On or about December 7, 2010, in the United States District Court, Northern District of California, a superseding indictment was filed charging Mr. Antonioni with one count of conspiracy to distribute Schedule III and IV controlled substances in violation of 21 U.S.C. 846; one count of attempted possession with intent to distribute and distribution of Schedule III and IV controlled substances in violation 21 U.S.C. ss. 846, 841(a)(1), (b)(1)(D) & (b)(2); one count of conspiracy to launder money in violation of 18 U.S.C. 1956(h) & (a)(2)(A); and one count of international money laundering in violation of 18 U.S.C. 1956(a)(2)(A).

5. On or about March 27, 2013, in the United States District Court, Northern District of California, in case number CR-10-00642-011, Mr. Antonioni entered a plea of guilty to one count of conspiracy with intent to distribute Schedule III or IV controlled substances, a felony, in violation of 21 U.S.C. 846.

6. The Department did not learn of the above referenced plea until on or about April 5, 2013.

7. Section 456.074(1), Florida Statutes (2012), provides that the Department *shall* issue an emergency order suspending the license of any person licensed under Chapter 465, Florida Statutes, who pleads guilty to a felony under 21 U.S.C. ss. 801-970, regardless of adjudication.

CONCLUSIONS OF LAW

Based on the foregoing Findings of Fact, the State Surgeon General and Secretary of Health concludes as follows:

1. The Department has jurisdiction pursuant to Sections 20.43 and 456.074(1), Florida Statutes (2012), and Chapter 465, Florida Statutes (2012).

2. The Department is mandated to summarily suspend Mr. Antonioni's license to practice as a pharmacist in accordance with Section 456.074(1), Florida Statutes (2012).

WHEREFORE, in accordance with Section 456.074(1), Florida Statutes (2012), it is ORDERED THAT:

1. The license of Dino Jose Antonioni, R.Ph., license number PS 38504, is immediately suspended.

2. A proceeding seeking formal suspension or discipline of the license of Dino Jose Antonioni, R.Ph., to practice as a pharmacist will be promptly instituted and acted upon in compliance with Section 120.569, Florida Statutes (2012).

DONE and ORDERED this 15th day of April, 2013.

Notification Letter to Respondent

DISCIPLINARY GUIDELINES:
Section 465.016(1)(e), Florida Statues (2012), by violating Section 893.13, Florida Statutes (2012): Minimum - $5,000.00 fine and 2 years probation to Maximum – Revocation.

Section 456.072(1)(c), Florida Statutes (2012), for a misdemeanor conviction related to the practice: Minimum - $1,000.00 fine to Maximum – Revocation.

PRELIMINARY CASE REMARKS: INFORMAL HEARING

- **FACTS:** Respondent stole upwards of 1,115 pills of controlled substances from his employer, Publix Pharmacy. Respondent admitted to ingesting some of the substances (Respondent was observed ingesting liquid hydrocodone on surveillance camera in the pharmacy), and bartering or giving away other drugs that he stole from the pharmacy. Deputies recovered approximately 400 pills from Respondent's home. Respondent was charged with a felony in Wakulla county and petit theft in Leon County. The Wakulla county charges were dropped and the Respondent plead nolo contendere to the misdemeanor count of petit theft on March 11, 2013 and adjudication was withheld.
  - An Emergency Suspension Order was issued by the Department on June 4, 2013.
  - An Administrative Complaint was filed on June 20, 2013.
  - Respondent returned an Election of Rights dated July 8, 2013, electing an informal hearing.

RECOMMENDATION OF THE DEPARTMENT

- The Department recommends revocation of the Respondent's license to practice as a registered pharmacy technician and the imposition of costs incurred by the Department in investigating and prosecuting this case through the date of the entry of the final order.

CONSIDERATIONS SUPPORTING THE DEPARTMENT'S RECOMMENDATION

- The Department makes the revocation recommendation because of the egregiousness of the Respondent's conduct in this case. The Respondent was first licensed in October 2012, and immediately began stealing large amounts of Schedule II controlled substances from his employer. The Respondent did not possess any of the required judgment for individuals working with controlled substances. Respondent blatantly stole medications from his employer, consumed them (even doing so while working), bartered the substances for food or just gave them away. Respondent should have been aware of the serious effects these drugs can have on people, but he had no regard for the damage his actions could cause to himself, his employer, or the people to whom he was providing the drugs. Furthermore, Respondent received extremely minimal punishment for his felony crimes, and the

probation conditions imposed fell short of addressing any of the real issues that led to Respondent's theft of the drugs.

Should the Board of Pharmacy not wish to revoke Respondent's license, the Department recommends that the only acceptable discipline alternative would be a $5,000 fine, imposition of all costs incurred by the Department in investigating and prosecuting the case, a one-year suspension, a period of four years probation, and a PRN evaluation with the requirement to follow PRN's recommendations.

MOTION FOR FINAL ORDER AFTER HEARING NOT INVOLVING DISPUTED ISSUES OF MATERIAL FACTS

COMES NOW, the Petitioner, by and through its undersigned counsel, and moves the Board of Pharmacy for entry of a Final Order in the above-styled cause on a date and time that has been determined and noticed by the Board. As grounds therefore, the Petitioner would state the following:

1. Petitioner previously filed an Administrative Complaint against Respondent alleging that Respondent had violated the provisions of Florida Statutes, as set forth therein. The Department, by filing the Administrative Complaint, is seeking to discipline the Respondent's license to practice as a **Registered Pharmacy Technician** thereby affecting the Respondent's substantial interests.

2. On or about June 20, 2013, Petitioner served Respondent with the Administrative Complaint via Respondent's address of record with the Department of Health. The Department, by serving the Respondent with the Administrative Complaint, provided the Respondent written notice of its decision to seek discipline of the Respondent's license to practice as a **Registered Pharmacy Technician**.

3. The Respondent has filed an Election of Rights Form or other responsive pleading evincing, or has otherwise indicated, that Respondent does not dispute the material facts alleged in the Administrative Complaint.

4. There are no disputed issues of material fact to be resolved by the Board.

5. Respondent has been advised, by a copy of this Motion, that a copy of the investigative file in this case shall be furnished to the Board to establish a prima facie case regarding the violations as set forth in the Administrative Complaint.

WHEREFORE, the parties respectfully request the Board of Pharmacy, after allowing the Respondent the opportunity to present oral and/or written evidence in mitigation of the Administrative Complaint, enter a Final Order imposing whatever discipline upon the Respondent's license that the Board deems appropriate.

10. On or about November 2, 2012, Publix pharmacy surveillance cameras were repositioned for additional monitoring.

11. The video surveillance taken on November 3, 2012, showed Respondent dumping prescription pills from multiple bottles into his hand and placing the medications into the pocket of his work jacket.

12. The pharmacy manager conducted a targeted drug count before Respondent's shift on November 3, 2012, and recounted after Respondent's shift.

13. The Department of Health (Department) is the state agency charged with regulating the practice of pharmacy pursuant to Section 20.43, Florida Statutes (2012); Chapter 456, Florida Statutes (2012); and Chapter 465, Florida Statutes (2012).

For probable cause shown and pursuant to the authority vested in the Department by Chapter 456, Florida Statutes (2012), you are hereby ordered to report and submit to a mental and physical examination to be conducted by the following named physician at the date, time and place indicated.

MENTAL AND PHYSICAL EXAMINATION

Leslie Parsons, D.O.

ON
Wednesday, July 31, 2013 @ 1:00 p.m.

The above-directed mental and physical examination is for the purpose of obtaining examination reports and expert opinion and testimony concerning your ability to practice pharmacy with reasonable skill and safety pursuant to

Sections 465.016(1)(m) or 456.072(1)(z), Florida Statutes (2012), and for introduction into evidence at any administrative hearing to be conducted on any administrative complaint filed against you which may allege a violation of Sections 465.016(1)(m) or 456.072(1)(z), Florida Statutes (2012). This order is predicated upon the following Findings of Fact and Conclusions of Law.

FINDINGS OF FACT

1. At all times material to this Order, Eric Gaines, II, R.P.T. (Mr. Gaines), was registered pharmacy technician within the state of Florida, having been issued registration number RPT 45259, pursuant to Chapter 465, Florida Statutes (2012).

2. On or about October 26, 2012, Publix Loss Prevention Officer, Mr. B.H., received a tip from a Publix customer reporting that someone in the Publix Pharmacy, located at 5032 Capital Circle SW, Tallahassee, Florida, was selling stolen prescription medications from the store.

3. On or about November 2, 2012, the cameras within the pharmacy were repositioned to allow additional monitoring of the events occurring within the pharmacy.

4. The video surveillance taken on November 3, 2012, showed Mr. Gaines dumping prescription pills from multiple bottles into his hand and placing

the medications into the pocket of his work jacket. The pharmacy manager conducted a targeted drug count before Mr. Gaines began work on November 3, 2012, and recounted after Mr. Gaines's shift. The drug count revealed a shortage in the following medications: alprazolam 0.5mg (194 pills taken); alprazolam 1mg (200 pills taken); alprazolam 2mg (4 pills taken); hydrocodone/APAP 5/325mg (115 pills taken); hydrocodone/APAP 5/500mg (71 pills taken); hydrocodone/APAP 10/500mg (29 pills taken).

5. Alprazolam, also known by the brand name Xanax, is prescribed to treat anxiety. According to Section 893.03(4), Florida Statutes (2012), alprazolam is a Schedule IV controlled substance that has a low potential for abuse relative to the substances in Schedule III and has a currently accepted medical use in treatment in the United States. Abuse of alprazolam may lead to limited physical or psychological dependence relative to the substances in Schedule III.

6. Hydrocodone/APAP, also known by the brand name Vicodin, contains hydrocodone and acetaminophen, or Tylenol and is prescribed to treat pain. According to Section 893.03(3), Florida Statutes (2012), hydrocodone, in the dosages found in hydrocodone/APAP is a Schedule III controlled substance that has a potential for abuse less than the substances in Schedules I and II

and has a currently accepted medical use in treatment in the United States. Abuse of the substance may lead to moderate or low physical dependence or high psychological dependence.

7. The video surveillance of November 3, 2012, also showed Mr. Gaines consuming liquid hydrocodone in the back of the pharmacy during his shift.

8. On or about November 5, 2012, Mr. B.H. conducted an interview of Mr. Gaines in the presence of the store manager, Ms. J.C. During the interview, Mr. Gaines admitted to stealing various controlled substances, including Vicodin, Xanax, Tramadol and Percocet, on approximately 10 to 15 occasions during the months of August through November, 2012. Mr. Gaines admitted to stealing approximately 1,115 pills from the pharmacy during that time. In a written statement, Mr. Gaines admitted to consuming some of the pills as well as selling or giving away others.

9. Tramadol, commonly known by the brand name Ultram, is an opioid class medication prescribed to treat pain. Tramadol is a legend drug, but not a controlled substance. Tramadol, like all opioid-class drugs, can affect mental alertness, is subject to abuse, and can be habit forming.

10. Percocet is a brand name for oxycodone/APAP, which contains

oxycodone and acetaminophen or Tylenol. According to Section 893.03(2), Florida Statutes (2012), oxycodone is a Schedule II controlled substance that has a high potential for abuse and has a currently accepted but severely restricted medical use in treatment in the United States. Abuse of oxycodone may lead to severe psychological or physical dependence.

11. Mr. Gaines informed Mr. B.H. and Deputy S.E., a Leon County Sheriff's Deputy, that he also possessed additional stolen medication at his home in Crawfordville, Florida.

12. On or about November 5, 2012, deputies with the Wakulla County Sheriff's Office Narcotics Unit conducted a search of Mr. Gaines's home. The deputies observed and seized 198 tablets of Alprazolam 1mg, 192 tablets of Alprazolam 0.5mg, 20 tablets of acetaminophen/hydrocodone (unknown dosage levels), and 2 Ambien tablets that Mr. Gaines kept behind his headboard. Deputies also observed unused syringes that Mr. Gaines kept in his bathroom.

13. Ambien is the brand name for the drug zolpidem, prescribed to treat insomnia. According to Title 21, Section 1308.14, Code of Federal Regulations, zolpidem is a Schedule IV controlled substance. Zolpidem can cause dependence and is subject to abuse.

14. Mr. Gaines admitted to Deputy J.P., a deputy with the Wakulla

County Sheriff's Office, that he ingested some of the stolen medications and he traded other medications for food at a local restaurant. Mr. Gaines told Deputy J.P. that giving medications to other people made him feel "cooler."

15. On or about November 5, 2012, Publix terminated Mr. Gaines from employment as a registered pharmacy technician due to the theft of medications from the pharmacy.

16. Section 456.072(1)(z), Florida Statutes (2012), states, in pertinent part, "[t]he following acts constitute grounds for which... disciplinary action[]... may be taken: [b]eing unable to practice with reasonable skill and safety to patients by reason of illness or use of alcohol, drugs, narcotics, chemicals, or any other type of material or as a result of any mental or physical condition."

17. Section 456.072(1)(z), Florida Statutes (2012), also states, "the department shall have, upon a finding of the State Surgeon General or the state Surgeon General's designee that probable cause exists to believe that the licensee is unable to practice because of the reasons stated in this paragraph, the authority to issue an order to compel a licensee to submit to a mental or physical examination by physicians designated by the department."

CONCLUSIONS OF LAW

1. The Department of Health, by and through the State Surgeon

General, has jurisdiction over this matter pursuant to Chapters 456 and 465, Florida Statutes (2012).

2. Mr. Gaines admitted to consuming multiple controlled substances that he stole from his employer. He was also observed on surveillance video consuming controlled substances in the workplace while on duty as a registered pharmacy technician. Mr. Gaines's behavior indicates that he is experiencing at least some level of drug dependence, or impaired judgment as a result of drug dependence, and may be potentially dangerous if he continues to work in the field of pharmacy where he will necessarily be exposed to multiple controlled substances.

3. Therefore, the State Surgeon General, through his undersigned designee, concludes that probable cause exists to believe Mr. Gaines is unable to practice pharmacy with reasonable skill and safety, pursuant to Sections 456.072(1)(z) and 465.016(1)(m), Florida Statutes (2012). A thorough and complete mental and physical examination of Mr. Gaines is necessary to protect the public and ensure that he is able to practice pharmacy with reasonable skill and safety.

3. In accordance with the authority vested in the Department of Health under Chapters 456 and 465, Florida Statutes, the State Surgeon

General, through his undersigned designee, concludes that Section 456.072(1)(z), Florida Statutes (2012), should be enforced.

In Re: Emergency Suspension of the Registration of
Eric Jasen Gaines, II, R.P.T.
Registration Number RPT 45259
Case Number 2012-16863

ORDER OF EMERGENCY SUSPENSION OF LICENSE

John H. Armstrong, MD, FACS, State Surgeon General and Secretary of Health, ORDERS the emergency suspension of the registration of Eric Jasen Gaines, R.P.T., to practice as a registered pharmacy technician in the State of Florida. Mr. Gaines holds registration number RPT 45259. His address of record is 7 Lilac Lane, Crawfordville, Florida 32327. The following Findings of Fact and Conclusions of Law support the emergency suspension of Mr. Gaines's registration to practice as a registered pharmacy technician in the State of Florida.

FINDINGS OF FACT

1. The Department of Health ("Department") is the state agency charged with regulating the practice of pharmacy pursuant to Chapters 20, 456, and 465, Florida Statutes (2012). Section 456.073(8), Florida Statutes (2012), authorizes the State Surgeon General to summarily suspend Mr. Gaines's registration to practice as a registered pharmacy

technician in the State of Florida in accordance with Section 120.60(6), Florida Statutes (2012).

2. At all times material to this order, Mr. Gaines was a registered pharmacy technician in the State of Florida, pursuant to Chapter 465, Florida Statutes (2012), and worked as a registered pharmacy technician at Publix Pharmacy located at 5032 Capital Circle Southwest, Suite 1, Tallahassee, Florida 32305.

3. On or about October 26, 2012, B.H., a Publix Loss Prevention Officer, received a tip from a Publix customer that a pharmacy employee named "Eric" was selling stolen prescription medications from the store.

4. After receiving this information, B.H. ran a report for the pharmacy location where Mr. Gaines worked to determine if any medications were missing. The report revealed the following discrepancies: Xanax 0.5mg was short by 115 tablets; alprazolam 0.5mg was short by 168 tablets; temazepam 30mg was short by 12 tablets; hydrocodone/APAP 5/500mg was short by 158 tablets; hydrocodone/APAP 7.5/3.25mg was short by 86 tablets; hydrocodone/APAP 10/325mg was short by 65 tablets; and hydrocodone/APAP 10/500mg was short by 99 tablets.

5. Alprazolam, also known by the brand name Xanax, is prescribed to treat anxiety. According to Section 893.03(4), Florida Statutes (2012), alprazolam is a Schedule IV controlled substance that has a low potential for abuse relative to the substances in Schedule III and has a currently accepted medical use in treatment in the United States. Abuse of alprazolam may lead to limited physical or psychological dependence relative to the substances in Schedule III.

6. Temazepam is prescribed to treat insomnia. According to Section 893.03(4), Florida Statutes (2012), temazepam is a Schedule IV controlled substance that has a low potential for abuse relative to the substances in Schedule III and has a currently accepted medical use in treatment in the United States. Abuse of temazepam may lead to limited physical or psychological dependence relative to the substances in Schedule III.

7. Hydrocodone/APAP, also known by the brand name Vicodin, contains hydrocodone and acetaminophen, or Tylenol and is prescribed to treat pain. According to Section 893.03(3), Florida Statutes (2012), hydrocodone, in the dosages found in hydrocodone/APAP is a Schedule III controlled substance that has a potential for abuse less than the

substances in Schedules I and II and has a currently accepted medical use in treatment in the United States. Abuse of the substance may lead to moderate or low physical dependence or high psychological dependence.

8. On or about November 2, 2012, Publix pharmacy surveillance cameras were repositioned for additional monitoring.

9. The video surveillance taken on November 3, 2012, showed Mr. Gaines dumping prescription pills from multiple bottles into his hand and placing the medications into the pocket of his work jacket. The pharmacy manager conducted a targeted drug count before Mr. Gaines began work on November 3, 2012, and recounted after Mr. Gaines's shift. The drug count revealed a shortage of the following medications: 194 pills of alprazolam 0.5mg; 200 pills of alprazolam 1mg; 4 pills of alprazolam 2mg; 115 pills of hydrocodone/APAP 5/325mg; 71 pills of hydrocodone/APAP 5/500mg; and 29 pills of hydrocodone/APAP 10/500mg.

10. The video surveillance from November 3, 2012, also showed Mr. Gaines consuming liquid hydrocodone in the back of the pharmacy during his shift.

11. On or about November 5, 2012, B.H. conducted an interview of Mr. Gaines in the presence of J.C., the store manager. During the

interview, Mr. Gaines admitted to stealing various controlled substances, including Vicodin, Xanax, Tramadol, and Percocet on approximately 10 to 15 occasions from August 2012 to November 2012. Mr. Gaines admitted to stealing approximately 1,115 pills from the pharmacy during that time. In a written statement, Mr. Gaines admitted to consuming some of the pills as well as selling or giving away others.

12. Tramadol, commonly known by the brand name Ultram, is an opioid class medication prescribed to treat pain. Tramadol is a legend drug, but not a controlled substance. Tramadol, like all opioid-class drugs, can affect mental alertness, is subject to abuse, and can be habit forming.

13. Percocet is a brand name for oxycodone/APAP, which contains oxycodone and acetaminophen or Tylenol. According to Section 893.03(2), Florida Statutes (2012), oxycodone is a Schedule II controlled substance that has a high potential for abuse and has a currently accepted but severely restricted medical use in treatment in the United States. Abuse of oxycodone may lead to severe psychological or physical dependence.

14. On or about November 5, 2012, S.E., a Leon County Sheriff's Deputy, interviewed Mr. Gaines. Mr. Gaines informed S.E. that once he began providing stolen pills to friends and acquaintances, it made Mr.

Gaines feel good that people wanted something from him.

15. Mr. Gaines also informed B.H. and S.E. that he possessed additional stolen medication at his home in Crawfordville, Florida.

16. On or about November 5, 2012, deputies with the Wakulla County Sheriff's Office Narcotics Unit conducted a search of Mr. Gaines's home. The deputies observed and seized 198 tablets of Alprazolam 1mg, 192 tablets of Alprazolam 0.5mg, 20 tablets of acetaminophen/hydrocodone of unknown dosage levels, and 2 Ambien tablets. Mr. Gaines kept all of the seized medications behind his headboard. Deputies also observed unused syringes that Mr. Gaines kept in his bathroom.

17. Ambien is the brand name for the drug zolpidem, prescribed to treat insomnia. According to Title 21, Section 1308.14, Code of Federal Regulations, zolpidem is a Schedule IV controlled substance. Zolpidem can cause dependence and is subject to abuse.

18. Mr. Gaines admitted to J.P., a deputy with the Wakulla County Sheriff's Office, that he ingested some of the stolen medications himself and traded other medications for food at a local restaurant. Mr. Gaines told J.P. that supplying pills to his friends made him feel "cooler."

19. On or about November 5, 2012, Publix terminated Mr. Gaines from employment as a registered pharmacy technician due to the theft of medications from the pharmacy.

20. Mr. Gaines entered a plea to theft charges on or about March 11, 2013, and was placed on probation for a period of six months.

21. In the course of practicing pharmacy, registered pharmacy technicians assist the pharmacist in data entry, and the counting, weighing, measuring, pouring and mixing of prescription medication or stock legend drugs and controlled substances, among various other tasks. Because registered pharmacy technicians are entrusted with such important tasks which include the handling, counting, and reporting of the drugs in the pharmacy, it is imperative that a registered pharmacy technician have good judgment and moral character while working in a pharmacy

22. Mr. Gaines's behavior in stealing over 1,100 prescription medication tablets for personal use over a three-month period, his use of the stolen drugs to benefit friends and acquaintances, his actual consumption of controlled substances while working in the pharmacy, and his motive for his actions clearly demonstrate that he is lacking the in judgment and moral character needed to practice as a registered pharmacy

technician.

23. As a result of his employment as a registered pharmacy technician, Mr. Gaines was aware that prescription medications and controlled substances may only be dispensed to patients with prescriptions who need the medications for a legitimate health reason. Despite this, Mr. Gaines illegally dispensed and distributed controlled substances to his friends, acquaintances and himself while knowing that no legitimate medical reason existed for the dispensing of the substances.

24. Mr. Gaines's lack of good judgment and moral character, his use of non-prescribed controlled substances while working, his illegal distribution of stolen controlled substances to individuals without a medical necessity, and his disregard for the laws and rules governing the practice of pharmacy in the State of Florida represent a significant likelihood that Mr. Gaines will cause harm to the general public. This probability constitutes an immediate serious danger to the health, safety, and welfare of the citizens of the State of Florida. Restricting Mr. Gaines's registration would not adequately protect the public because the very nature of practicing as a registered pharmacy technician puts Mr. Gaines in contact with legend drugs and controlled substances, which creates the risk for

further theft and distribution of the controlled substances. As a result, nothing short of the immediate suspension of Mr. Gaines's registration to practice as a registered pharmacy technician will protect the public from this danger.

CONCLUSIONS OF LAW

Based on the foregoing Findings of Fact, the State Surgeon General concludes as follows:

1. The State Surgeon General of the Department of Health has jurisdiction over this matter pursuant to Sections 20.43 and 456.073(8), Florida Statutes (2012), and Chapter 465, Florida Statutes (2012), as set forth above.

2. Section 465.016(1)(i), Florida Statutes (2012), subjects registered pharmacy technicians to discipline, including suspension as specified in Section 456.072(2), Florida Statutes (2012), for "[c]ompounding, dispensing, or distributing a legend drug, including any controlled substance, other than in the course of the professional practice of pharmacy."

3. Mr. Gaines violated Section 465.016(1)(i) by:

a. Dispensing or distributing alprazolam, or Xanax, to himself,

and/or to friends or acquaintances, outside of the practice of pharmacy;

b. Dispensing or distributing hydrocodone/APAP, or Vicodin, to himself, and/or to friends or acquaintances, outside of the practice of pharmacy;

c. Dispensing or distributing tramadol to himself and/or to friends or acquaintances, outside of the practice of pharmacy;

d. Dispensing or distributing oxycodone/APAP to himself and/or to friends or acquaintances, outside of the practice of pharmacy; and/or

e. Dispensing or distributing Ambien to himself and/or to friends or acquaintances, outside of the practice of pharmacy.

4. Section 120.60(6), Florida Statutes (2012), authorizes the Department to suspend a registered pharmacy technician's registration upon a finding that the registered pharmacy technician presents an immediate, serious danger to the public health, safety or welfare.

5. Mr. Gaines's continued ability to practice as a registered pharmacy technician constitutes an immediate serious danger to the health, safety, or welfare of the public and this summary procedure is fair

under the circumstances to adequately protect the public.

In accordance with Section 120.60(6), Florida Statutes (2012), it is

ORDERED THAT:

1. The registration of Eric Jasen Gaines, II, registration number RPT 45259, is immediately suspended.

2. A proceeding seeking formal discipline of the registration of Mr. Gaines to practice as a registered pharmacy technician will be promptly instituted and acted upon in compliance with Sections 120.569 and 120.60(6), Florida Statues (2012).

DEPARTMENT OF HEALTH

DEPARTMENT OF HEALTH,

Petitioner,

v. **CASE NO. 2012-16863**

ERIC JASEN GAINES, II, RPT,

Respondent.
_____/

MOTION TO ASSESS COSTS
IN ACCORDANCE WITH SECTION 456.072(4)

COMES NOW the Department of Health, by and through undersigned counsel, and moves the Board of Pharmacy for the entry of a Final Order assessing costs against the Respondent for the investigation and prosecution of this case in accordance with Section 456.072(4), Florida Statutes (2003). As grounds therefore, the Petitioner states the following:

1. At its next regularly scheduled meeting, the Board of Pharmacy will take up for consideration the above-styled disciplinary action and will enter a Final Order therein.

2. Section 456.072(4), Florida Statutes (2003),[1] states as follows:

> In addition to any other discipline imposed through final order, or citation, entered on or after July 1, 2001,

[1] Ch. 2003-416, § 19, Laws of Fla., effective September 15, 2003, amended Section 456.072(4), Florida Statutes (2003), to include the underlined language.

> pursuant to this section or discipline imposed through final order, or citation, entered on or after July 1, 2001, for a violation of any practice act, the board, or the department when there is not board, shall assess costs related to the investigation and prosecution of the case. Such costs related to the investigation and prosecution include, but are not limited to, salaries and benefits of personnel, costs related to the time spent by the attorney and other personnel working on the case, and any other expenses incurred by the department for the case. The board, or the department when there is no board, shall determine the amount of costs to be assessed after its consideration of an affidavit of itemized costs and any written objections thereto. . . . (emphasis added)

3. The investigation and prosecution of this case has resulted in costs in the total amount of $6,072.92, based on the following itemized statement of costs:

a. Total costs for Complaints $82.35
b. Total costs for Investigations $1,515.75
c. Total costs for Legal $2,052.68
d. Total costs for expenses $2,422.14

Therefore, the Petitioner seeks an assessment of costs against the Respondent in the amount of $6,072.92, as evidenced in the attached affidavit. (Exhibit A).

4. Should the Respondent file written objections to the assessment of costs, within ten (10) days of the date of this motion, specifying the grounds for the objections and the specific elements of the costs to which the objections are made, the Petitioner requests that the

Board determine the amount of costs to be assessed based upon its consideration of the affidavit attached as Exhibit A and any timely-filed written objections.

5. Petitioner requests that the Board grant this motion and assess costs in the amount of $6,072.92 as supported by competent, substantial evidence. This assessment of costs is in addition to any other discipline imposed by the Board and is in accordance with Section 456.072(4), Florida Statutes (2003).

WHEREFORE, the Department of Health requests that the Board of Pharmacy enter a Final Order assessing costs against the Respondent in the amount of $6,072.92.

AFFIDAVIT OF FEES AND COSTS EXPENDED

STATE OF FLORIDA
COUNTY OF LEON:

BEFORE ME, the undersigned authority, personally appeared **SHANE WALTERS** who was sworn and states as follows:

1) My name is Shane Walters.

2) I am over the age of 18, competent to testify, and make this affidavit upon my own personal knowledge and after review of the records at the Florida Department of Health (DOH).

3) I am the Operations and Management Consultant Manager (OMCM) for the Consumer Services and Compliance Management Unit for DOH. The Consumer Services Unit is where all complaints against Florida health care licensees (e.g., medical doctors, dentists, nurses, respiratory therapists) are officially filed. I have been in my current job position for more than one year. My business address is 4052 Bald Cypress Way, Bin C-75 Tallahassee, Florida 32399-3275.

4) As OMCM of the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.

5) As of today, DOH's total costs for investigating and prosecuting DOH case number(s) **2012-16863** (Department of Health v. **Eric Jasen Gaines, II, R.P.T.**) are **SIX THOUSAND SEVENTY-TWO DOLLARS AND NINETY-TWO CENTS ($6,072.92).**

6) The costs for DOH case numbers **2012-16863** (Department of Health v. **Eric Jasen Gaines, II, R.P.T.**) are summarized in Exhibit 1 (Cost Summary Report), which is attached to this document.

7) The itemized costs and expenses for DOH case numbers **2012-16863** (Department of Health v. **Eric Jasen Gaines, II, RPT**) are detailed in Exhibit 2 (Itemized Cost Report and Itemized Expense Report and receipts), which is attached to this document.

8) The itemized costs as reflected in Exhibit 2 are determined by the following method: DOH employees who work on cases daily are to keep track of their time in six-minute increments (e.g., investigators

and lawyers). A designated DOH employee in the Consumer Services Unit, Legal Department, and in each area office, inputs the time worked and expenses spent into the Time Tracking System. Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. (See the Itemized Cost Report)

9) Shane Walters, first being duly sworn, states that she has read the foregoing Affidavit and its attachments and the statements contained therein are true and correct to the best of her knowledge and belief.

FURTHER AFFIANT SAYETH NOT.

Re: DOH vs. Eric Jansen Gaines, II, R.P.T.
DOH Case Number: 2012-16863

Dear Mr. Gaines:

I am in receipt of your election of rights requesting a hearing not involving disputed issues of material fact executed by you on July 8, 2013 concerning the above referenced case. This means that the facts alleged in the Administrative Complaint are uncontested. This is an important distinction because, by law, the Board cannot resolve disputes of material fact in this case or any disciplinary case. Since you are requesting a hearing not involving disputed issues of material fact, you are not admitting the facts alleged in the Administrative Complaint, however, you are agreeing not to contest these facts and to limit presentation to legal argument, if any, and to matters in mitigation or extenuation.

Our office is now preparing for this case to be presented at the next regularly scheduled meeting of the Florida Board of Pharmacy.

Thank for your attention and cooperation in this matter. Should you have any questions, please feel free to contact this office.

Sincerely,

Louise Wilhite-St. Laurent.

MOTION FOR FINAL ORDER AFTER HEARING NOT INVOLVING DISPUTED ISSUES OF MATERIAL FACTS

COMES NOW, the Petitioner, by and through its undersigned counsel, and moves the Board of Pharmacy for entry of a Final Order in the above-styled cause on a date and time that has been determined and noticed by the Board. As grounds therefore, the Petitioner would state the following:

1. Petitioner previously filed an Administrative Complaint against Respondent alleging that Respondent had violated the provisions of Florida Statutes, as set forth therein. The Department, by filing the Administrative Complaint, is seeking to discipline the Respondent's license to practice as a **Registered Pharmacy Technician**, thereby affecting the Respondent's substantial interests.

2. On or about April 10th, 2013, Petitioner served Respondent with the Administrative Complaint via Certified Mail at the Hardee Work Camp, DC#T79719, 6901 State Road 62, Bowling Green, Florida 33834, and P.O. Box 15152, Tampa, Florida 33684, at the Respondent's address of record with the Department of Health. The Department, by serving the Respondent with the Administrative Complaint, provided the Respondent written notice of its decision to seek discipline of the Respondent's license to practice as a **Registered Pharmacy Technician**.

3. The Respondent has filed an Election of Rights Form or other responsive pleading evincing, or has otherwise indicated, that Respondent does not dispute the material facts alleged in the Administrative Complaint.

4. There are no disputed issues of material fact to be resolved by the Board.

5. Respondent has been advised, by a copy of this Motion, that a copy of the investigative file in this case shall be furnished to the Board to establish a prima facie case regarding the violations as set forth in the Administrative Complaint.

WHEREFORE the parties respectfully request the Board of Pharmacy, after allowing the Respondent the opportunity to present oral and/or written evidence in mitigation of the Administrative Complaint, enter a Final Order imposing whatever discipline upon the Respondent's license that the Board deems appropriate.

Respectfully submitted,

AFFIDAVIT OF FEES AND COSTS EXPENDED

STATE OF FLORIDA
COUNTY OF LEON:

BEFORE ME, the undersigned authority, personally appeared **SHANE WALTERS** who was sworn and states as follows:

1) My name is Shane Walters.

2) I am over the age of 18, competent to testify, and make this affidavit upon my own personal knowledge and after review of the records at the Florida Department of Health (DOH).

3) I am the Operations and Management Consultant Manager (OMCM) for the Consumer Services and Compliance Management Unit for DOH. The Consumer Services Unit is where all complaints against Florida health care licensees (e.g., medical doctors, dentists, nurses, respiratory therapists) are officially filed. I have been in my current job position for more than one year. My business address is 4052 Bald Cypress Way, Bin C-75 Tallahassee, Florida 32399-3275.

4) As OMCM of the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.

5) As of today, DOH's total costs for investigating and prosecuting DOH case number(s) **2013-01501** (Department of Health v. **LAMONTE GEORGE HAMBRICK, R.P.T.**) are **ONE THOUSAND ONE HUNDRED TWENTY-FIVE DOLLARS AND NINETY-SIX CENTS ($1,125.96).**

6) The costs for DOH case numbers **2013-01501** (Department of Health v. **LAMONTE GEORGE HAMBRICK, R.P.T.**) are summarized in Exhibit 1 (Cost Summary Report), which is attached to this document.

7) The itemized costs and expenses for DOH case numbers **2013-01501** (Department of Health v. **LAMONTE GEORGE HAMBRICK, R.P.T.**) are detailed in Exhibit 2 (Itemized Cost Report and Itemized Expense Report and receipts), which is attached to this document.

8) The itemized costs as reflected in Exhibit 2 are determined by the following method: DOH employees who work on cases daily are to keep track of their time in six-minute increments (e.g., investigators and lawyers). A designated DOH employee in the Consumer Services Unit, Legal Department, and in each area office, inputs the time worked and expenses spent into the Time Tracking System. Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. (See the Itemized Cost Report)

9) Shane Walters, first being duly sworn, states that she has read the foregoing Affidavit and its attachments and the statements contained therein are true and correct to the best of her knowledge and belief.

FURTHER AFFIANT SAYETH NOT.

Dear Ms. Leikam,

Last month I received your letter stating that an informal hearing on my case is scheduled on August 14, 2013. My question to you is: Is it possible for me to attend this informal hearing even though I am incarcerated? If not, can a telephonic hearing be scheduled so I can at least be a part of the hearing? I stated to you before in a previous letter that my current case is pending review on appeal with the 2nd District Court of Appeal. My case number with them is: 2D13-1708. You can check the status of my case with them at their website: www.2dca.org. I was wondering if a final order or decision on my case could be postponed until a decision is made on my appeal? Also, is it still possible for me to voluntarily relinquish my license? If so, please let me know at your earliest possible convenience. Anything you can do would be greatly appreciated. I await to hear back from you as soon as possible.

Sincerely,
Lamonte Hambrick

Dear Ms. LeiKam,

I am writing you to inform you that I received the settlement agreement and I am rejecting it. The reason why is because I am appealing my case, and it is currently pending review from the 2nd District Court of Appeal. If you would like to check into it, the case no is: 2D13-1708. If possible, I would like to postpone an informal hearing with the Board of Pharmacy until my appeal is honored and resolved. Please let me know if this is satisfactory with you at your earliest convenience. Thank you kindly.

Re: **Department of Health v. Lamonte George Hambrick, R.P.T.**
Complaint Number: 2013-01501

Dear Mr. Hambrick:

I received your letter dated July 1, 2013, requesting a postponement of your case before the Board of Pharmacy. I also understand Assistant General Counsel Casey Cowan responded to your request, and second request for a continuance was directed to the Board of Pharmacy. Again, the Board of Pharmacy does not allow telephonic appearance, and will not postpone this case indefinitely pending the outcome of your criminal appeal. However, the Board of Pharmacy has agreed to postpone your case until the October 2013 Board of Pharmacy meeting so that you may make arrangements to be present. You will receive a separate notice regarding the October 2013 Board of Pharmacy meeting. In the future, please direct any request for continuances directly to the Board of Pharmacy. As a prosecutor for the Department of Health, I do not have the authority to grant continuances, or change the time a hearing is scheduled to be heard.

Thank you for your attention to this matter. Please feel free to contact me at 850-245-4444 extension 8150 if you have any questions.

Sincerely,

Re: **Department of Health v. Lamonte George Hambrick, R.P.T.**
Complaint Number: 2013-01501

Dear Mr. Hambrick:

I received the letter you sent to Ms. Leikam on July 1, 2013. Ms. Leikam is currently out of the office and I am responding on her behalf. In your letter, you indicated that you would like to attend the August Board of Pharmacy hearing via telephone and requested to postpone the case until a decision is made on your criminal appeal. Unfortunately, the Board of Pharmacy does not allow telephonic appearance and the Department is unwilling to postpone this case until a decision is made on your criminal appeal. If you would like to continue this case until the October Board of Pharmacy meeting, you will have to submit a request to the Board of Pharmacy.

You indicated in your letter that you are interested in relinquishing your license. If you would like to voluntarily relinquish your license, please sign and notarize the Voluntary Relinquishment of License included with this letter. If we do not receive the signed voluntary relinquishment form by August 5, 2013, your case will proceed to the Board of Pharmacy meeting as an informal hearing.

If you any questions, please contact me at the address below or via telephone at (850) 245-4444, extension 8103. Ms. Leikam is expected to return to the office on July 15, 2013, and she can be reached at extension 8150.

Sincerely,

License No.: RPT 8527
Case No.: 2013-01501

ORDER OF EMERGENCY SUSPENSION OF LICENSE

John H. Armstrong, MD, FACS, State Surgeon General and Secretary of Health, ORDERS the emergency suspension of the license of Lamonte George Hambrick, R.P.T., to practice as a registered pharmacy technician in the State of Florida. Mr. Hambrick holds license number RPT 8527. His address of record is P.O. Box 151572, Tampa, Florida 33684. The following Findings of Fact and Conclusions of Law support the emergency suspension of Mr. Hambrick's license to practice as a registered pharmacy technician.

FINDINGS OF FACT

1. The Department of Health (Department) is the state agency charged with regulating the practice of pharmacy pursuant to Chapters 20, 456, and 465, Florida Statutes (2012). Section 456.074(1), Florida Statutes (2012), authorizes the Department to summarily suspend Mr. Hambrick's license to practice as a registered pharmacy technician.

2. At all times material to this Order, Mr. Hambrick was licensed to practice as a registered pharmacy technician in the State of Florida pursuant to Chapter 465, Florida Statutes (2012).

3. On or about May 15, 2012, the Hillsborough County Sheriff's Office arrested Mr. Hambrick for trafficking in illegal drugs twenty-eight (28) grams to twenty (20) kilograms in violation of Section 893.135(1)(c)1.c., Florida Statutes (2012), and grand theft in violation of Section 812.014(2)(c)2., Florida Statutes (2012).

4. On or about October 31, 2012, in the Circuit Court of the Thirteenth Judicial Circuit in and for Hillsborough County, Florida, in case number 12-CF-007394, Mr. Hambrick entered a plea of guilty to one (1) count of trafficking in illegal drugs twenty-eight (28) grams to twenty (20) kilograms, a first degree felony, in violation of Section 893.135(1)(c)1.c., Florida Statutes (2012); and one (1) count of grand theft, a third degree felony, in violation of Section 812.014(2)(c)2., Florida Statutes (2012).

5. The Department did not learn of the above referenced pleas until on or about January 23, 2013.

6. Section 456.074(1), Florida Statutes (2012), provides that the Department *shall* issue an emergency order suspending the license of any

person licensed under Chapter 465, Florida Statutes (2012), who pleads guilty to a felony under Chapter 893, Florida Statutes, regardless of adjudication.

CONCLUSIONS OF LAW

Based on the foregoing Findings of Fact, the State Surgeon General and Secretary of Health concludes as follows:

1. The Department has jurisdiction pursuant to Sections 20.43 and 456.074(1), Florida Statutes (2012), and Chapter 465, Florida Statutes (2012).

2. The Department is mandated to summarily suspend Mr. Hambrick's license to practice as a registered pharmacy technician in accordance with Section 456.074(1), Florida Statutes (2012).

WHEREFORE, in accordance with Section 456.074(1), Florida Statutes (2012), it is ORDERED THAT:

FILED DATE: 6-2-2011

Deputy Agency Clerk

STATE OF FLORIDA
DEPARTMENT OF HEALTH

In Re: Emergency Suspension of the License of
JOSEPH BROWN, RPH
License No.: PS 26675
Case Nos.: 2011-08871

ORDER OF EMERGENCY SUSPENSION OF LICENSE

The State Surgeon General, ORDERS the emergency suspension of the license of Joseph Brown, RPH, to practice as a pharmacist in the State of Florida. Mr. Brown holds license number PS 26675. His address of record is 6826 Hatteras Drive, Lake Worth, Florida 33467. The following Findings of Fact and Conclusions of Law support the emergency suspension of Mr. Brown's License to practice as a pharmacist.

FINDINGS OF FACT

1. The Department of Health (Department) is the state agency charged with regulating the practice of pharmacy pursuant to Chapters 20, 456 and 465, Florida Statutes. Section 456.073(8), Florida Statutes (2010), authorizes the State Surgeon General to summarily suspend Mr. Brown's license to practice as a pharmacist in

the State of Florida, in accordance with Section 120.60(6), Florida Statutes (2010).

2. At all times material to this Order, Mr. Brown was licensed to practice as a pharmacist, in the State of Florida, pursuant to Chapter 465, Florida Statutes.

3. On or about May 25, 2011, Respondent, Mr. Brown, was the subject of a traffic stop, during which he gave consent to police to search his car and his person. During said search, Mr. Brown was found to be in possession of ten Hydrocodone/APAP 10/325mg pills and four pills of the prescription drug Ambien.

4. Mr. Brown was arrested by the Palm Beach Sheriff's Office and charged with a violation of Section 893.13(6)(a), Florida Statutes (2010), for possession of hydrocodone, a schedule III substance, without a prescription.

5. Mr. Brown was booked into the Palm Beach County Jail at 11:44 pm on Wednesday, May 25, 2011, and was released on a $6,000 bond at 7:05 pm on Thursday, May 26, 2011.

6. After being advised of his Miranda Rights, Mr. Brown admitted the following to police officers:

a) that he has a substance abuse problem,

b) that the pills found in his vehicle were taken directly out of his pharmacy's stock,

c) that he did not have a lawful prescription for these substances,

d) that he was personally using 10-20 Ambien and Hydrocodone tablets daily, and

e) that he has been selling schedule III and IV substances to established pharmacy customers without a prescription.

7. Hydrocodone/APAP contains hydrocodone and acetaminophen (Tylenol), and is prescribed to treat pain. According to Section 893.03(3), Florida Statutes, hydrocodone, in the dosages found in hydrocodone/APAP, is a Schedule III controlled substance that has a potential for abuse less than the substances in Schedules I and II and has a currently accepted medical use in treatment in the United States. Abuse of the substance may lead to moderate or low physical dependence or high psychological dependence.

8. Ambien is the brand name for the drug zolpidem, prescribed to treat insomnia. According to Title 21, Section 1308.14, Code of Federal Regulations, zolpidem is a Schedule IV controlled substance. Zolpidem can cause dependence and is subject to abuse.

9. Section 465.016(1)(e), Florida Statutes, provides that a pharmacist can be disciplined, including suspension, for violating a provision of Chapter 893, Florida Statutes.

10. Mr. Brown violated Section 465.016(1)(e), Florida Statutes (2010), by violation of 893.13(6)(a), Florida Statutes (2010), by possessing hydrocodone/APAP, a controlled substance, without a prescription, as admitted in his written statement.

11. Section 120.60(6), Florida Statutes, authorizes the Department to summarily suspend a pharmacist's license if the Department finds that the pharmacist presents an immediate serious danger to the public health, safety, or welfare.

12. In the course of their work, pharmacists have access to medications, including controlled substances, which have a high likelihood for abuse and harm. They must prepare such drugs in a manner that is safe and effective for the patient. Even medications

that are not generally considered dangerous may kill or severely harm a patient if that patient is allergic to an ingredient or is taking another medication that may adversely interact with the prescribed medication.

13. Controlled substances are *controlled* by state and federal law because they carry a risk of addiction and, if used in any way other than as prescribed by a doctor, the risk of overdose and other harmful health effects, in addition to the harm presented by their misuse while engaged in dangerous activities, such as operating a motor vehicle. By diverting controlled substances from a regulated pharmacy setting into the illicit drug trade, Mr. Brown's actions contribute to the widespread problem of prescription drugs being abused in the State of Florida.

14. Mr. Brown's intentional diversion of controlled substances evidences a lack of professional judgment and moral character which creates the potential for future diversion if the licensee is allowed to continue in the occupation of pharmacist. Further, his admission that he personally has been abusing controlled substances without a prescription further elevates the risk that he would continue diverting controlled substances. The continued licensure of Mr. Brown

constitutes an immediate serious danger to the health, safety, or welfare of the citizens of the State of Florida. Nothing short of the immediate suspension of Mr. Brown's license will ensure the protection of the public from this danger.

CONCLUSIONS OF LAW

Based on the foregoing Findings of Fact, the State Surgeon General concludes as follows:

1. The Department has jurisdiction pursuant to Sections 20.43 and 456.073(8), Florida Statutes (2010) and Chapter 465, Florida Statutes.

2. Mr. Brown violated Section 465.016(1)(e), Florida Statutes (2010), by violation of Section 893.13(6)(a), Florida Statutes (2010).

WHEREFORE, in accordance with Section 120.60(6), Florida Statutes (2010), it is ORDERED THAT:

1. The license of JOSEPH BROWN, RPH, License number PS 26675, is immediately suspended.

2. A proceeding seeking formal suspension or discipline of the license of JOSEPH BROWN, RPH, to practice as a pharmacist will be

promptly instituted and acted upon in compliance with Section 120.569, Florida Statutes.

DONE and ORDERED this 2 day of June, 2011.

Petitioner Department of Health, by and through its undersigned counsel, files this Administrative Complaint before the Board of Pharmacy against Respondent, JOSEPH BROWN, RPH, and in support thereof alleges:

1. Petitioner is the state department charged with regulating the practice of pharmacy pursuant to Section 20.43, Florida Statutes; Chapter 456, Florida Statutes; and Chapter 465, Florida Statutes.

2. At all times material to this Complaint, Respondent was a licensed pharmacist within the state of Florida, having been issued license number PS 26675.

As demonstrated by his possession of Hydrocodone and Ambien without a prescription and as admitted in his statement to police, both on May 25, 2011, Respondent improperly diverted legend drugs, including controlled substances, from his pharmacy stocks without a prescription, and gave those to drugs himself and to others.

16. Respondent violated Section 4655.016(1)(i), Florida Statutes (2010), by distributing legend drugs, including controlled substances, other than in the course of the professional practice of pharmacy.

IN THE MATTER OF THE INDIANA)
PHARMACIST LICENSE OF:)
)
JANET DWIGANS, R.PH.,)
LICENSE NUMBER: 26016126A.)

FINDINGS OF FACT, CONCLUSIONS OF LAW, AND ORDER

The Indiana Board of Pharmacy ("Board") held an administrative hearing on February 14, 2011, in Room W064 of the Indiana Government Center South, 402 West Washington Street, Indianapolis, Indiana, concerning the request by Janet Dwigans, R.Ph. ("Respondent") to modify the terms of probation on her license.

The State of Indiana was represented by Deputy Attorney General, Darren Covington. Respondent appeared in person and waived her right to be represented by counsel.

The Board, after considering the evidence presented and taking official notice of its file in this matter, voted 6 to 0 to issue the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. Respondent, whose mailing address is 6974 West County Line Road 25 South, Greencastle, Indiana 46135, is a duly licensed pharmacist in the State of Indiana holding license number 26016126A.

2. The Indiana Professional Licensing Agency sent, and Respondent received, timely and proper notice of the date, time, and location of this hearing pursuant to Ind. Code § 4-21.5-3-20.

3. The Board is empowered to hold this administrative hearing pursuant to the authority of Ind. Code § 25-1-9-9 and Ind. Code § 4-21.5-3.

4. The Board renewed Respondent's license on probation in June 2010 because she had abused her husband's prescription medications and eventually overdosed on those medications. She subsequently signed a recovery agreement with the Pharmacists Recovery Network ("PRN") in January 2010 and appeared to be in recovery.

5. In a request submitted in January 2011, Respondent asked that the probation on her license be modified. She wanted relief from the prohibition of not working more than 10 hours in a single day or more than 74 hours in a two week period.

6. Respondent requested that the conditions on her probation be modified because it would allow her more work flexibility. The medical director of PRN supports her request that she be allowed to work up to 45 hours a week and that she be allowed to work 12 hour shifts provided the 12 hour shifts are not consecutive.

7. Respondent has complied with all the Terms and Conditions of probation on her license and the Board concludes she can safely work if her probation is modified in a manner that reflects the recommendations of PRN

8. The deficiency that led to the discipline on Respondent's license involved abuse of medications. Respondent's compliance with her probation and commitment to recovery constitutes changed circumstances warranting a modification of the Terms and Conditions of probation on her license.

CONCLUSIONS OF LAW

1. "The board may withdraw or modify the probation ... if it finds, after a hearing, that the deficiency that required disciplinary action has been remedied, or that changed circumstances warrant a modification of the order." Ind. Code § 25-1-9-9(b).

2. Respondent's compliance with her probation and commitment to recovery constitute changed circumstances warranting a modification of the Terms and Conditions of probation on her license.

ORDER

Based upon the foregoing Findings of Fact and Conclusions of Law, the Board **MODIFIES** the probationary order on Respondent's license, which was issued on August 27, 2010, as follows:

1. Paragraph 2, k. of the Terms and Conditions on Respondent's license is modified to read as follows:

   k. ***Respondent may not work more than 45 hours a week. She may work 12 hour shifts during a week provided the 12 hour shifts are not consecutive.***

2. Paragraph 2, i. of the Terms and Conditions on Respondent's license is modified to provide that, starting this month, she must make an additional nine (9) personal appearances on a monthly basis.

3. All other terms and conditions on Respondents' license will remain in full force and effect.

ORDERED, this 08 of March, 2011.

IN THE MATTER OF THE INDIANA PHARMACIST LICENSE OF:

JANET DWIGANS, R.PH.
LICENSE NUMBER: 26016126A

FINDINGS OF FACT, CONCLUSIONS OF LAW AND ORDER

Janet Dwigans appeared at a hearing before the Indiana Board of Pharmacy ("Board") on August 13, 2012, in Room W064 of the Indiana Government Center South, 402 West Washington Street, Indianapolis, Indiana concerning her request to have the probationary terms withdrawn from her license as a pharmacist.

The state of Indiana appeared by Joshua Timmons, Graduate Legal Intern and Darren Covington, Deputy Attorney General. Dwigans appeared in person and waived her right to be represented by counsel.

The Board, after considering the file and the testimony of Dwigans, by a vote of 7 to 0, issued the following Findings of Fact, Conclusions of Law and Order.

FINDINGS OF FACT

1. Janet Dwigans, whose mailing address is 6974 W County Road 25 S, Greencastle, Indiana 46135, is a duly licensed pharmacist in the State of Indiana holding license number 26016126A.

2. The Indiana Professional Licensing Agency sent, and Dwigans received, timely and proper notice of the date, time and location of this hearing pursuant to Ind. Code § 4-21.5-3-20.

3. The Board is empowered to hold this administrative hearing pursuant to the authority of Ind. Code § 25-1-9-9 and Ind. Code § 4-21.5-3.

4. This Board renewed Dwigans' license on probation in August 2010 because in 2009 she had started abusing her husband's prescription medications and ultimately overdosed on a combination of them in December of that year. She signed a three year recovery agreement with the Pharmacists Recovery Network (PRN) on January 12, 2010.

5. In July 2012, Dwigans asked that the probation on her license be withdrawn.

6. At the hearing on withdrawal of probation, Dwigans testified that she has complied fully with the terms of her probation, which included abiding by her recovery agreement with the PRN. Richard Hinchman, M.D., medical director of the PRN, recommends an early release from her agreement which is currently due to end in six months. Letter from Richard Hinchman, M.D. dated July 18, 2012.

7. Dwigans testified that she will continue going to 12 Step meetings in the future and PRN considers her to be a model of recovery.

8. The deficiencies that led to the probation of Dwigans' license involved substance abuse. Dwigans' compliance with her probation constitutes evidence that this problem has been remedied.

CONCLUSIONS OF LAW

1. "The board may withdraw or modify the probation ... if it finds, after a hearing, that the deficiency that required disciplinary action has been remedied, or that changed circumstances warrant a modification of the order." Ind. Code § 25-1-9-9(b).

2. Dwigans' compliance with her probation constitutes evidence that the deficiency that required disciplinary action has been remedied.

ORDER

Based upon the foregoing Findings of Fact and Conclusions of Law, the Board **WITHDRAWS** the probation on Dwigans' license.

ORDERED this 28 of August, 2012.
